TWO DEAD AS RESULT OF MOTORING ACCIDENT

Winfield Lose, of Milesburg, Died in Philipsburg Hospital

DRIVER MAY BE HELD

Two men—Winfield M. Lose, of Milesburg, and Joseph Atterson, of Punxsutawney—are dead, and three companions—Carl Hetager, James A. Heaney and Ray Snyder—are suffering from injuries received as the result of a most lamentable motoring accident which occurred early last Thursday morning on a sharp curve on Mapleton hill, near Philipsburg.

Atterson was dead when found and Win Lose was known to be very seriously injured. He died in the Cottage State hospital in Philipsburg on Saturday morning at 3 o'clock. The other men will recover.

Winfield M. Lose was born in Bellefonte, a son of Mr. and Mrs. Scott Lose, who resided for many years on South Allegheny street, and was forty-two years old. He was married to Miss Anna McKinley, who survives, with one son, Hassell, 15, at home; the parents; and the following brothers and sisters: Ella and James, Altoona; Mrs. Joseph McGowan, Bellefonte; Mrs. Drew Hoover, Julian; and Harry, Philadelphia. Funeral services were held on Monday afternoon and burial made in Curtin cemetery.

The circumstances attending the motor trip and subsequent accident are being investigated by the coroner of Clearfield county and it is alleged that Carl Hetager, will be charged with operating a car while intoxicated.

The five started out from Philipsburg in a Ford five-passenger car belonging to and driven by Carl Hetager about midnight. They were on their way back to Philipsburg. Near the top of Mapleton Hill, the car left the roadway on the left side, climbed the embankment, then toppled into the gutter through which water from the other side of the road passes under the paved roadway.

The man who was killed was probably pitched out of the car and into the gutter or gully, the car dropping on top of him crushing his head.

Lose was also caught under the wrecked car. The others were likely thrown out and away from the car as it upset.

The accident happened about 4 o'clock. An early morning motorist found one of the men lying on the road. He was unconscious. He succeeded in reviving him. Attention was then given to the others, and as soon as a telephone could be reached the hospital was notified and the ambulance sent to the scene.

The two most seriously injured men, Lose and Hetager, were taken to the hospital first. Lose had a fractured skull, and the hospital reported his condition as very grave indeed. Hetager had a fractured femur, with lesser injuries. His condition is reported as fairly good. Heaney was taken to Osceola Mills where Dr. G. A. Ricketts gave him temporary attention. He was later taken to the hospital, He has a cut on the head and right hand and other injuries. Snyder also went to the hospital. He was only slightly hurt and was discharged.

Atterson was a diamond driller and had been employed around Philipsburg for some time. Carl Hetager is also a diamond driller. He too resides at Punxsutawney. W. M. Lose is a painter whose home is at Milesburg and employed by the Bellefonte Lumber company. James Heaney is a resident of Johnstown and employed as superintendent for the Red Jacket mining operation near Philipsburg. The four men were registered as roomers at the Potter House. Snyder, the fifth man, who was so fortunate as to escape with slight injuries, is a painter whose home is at Bellwood.

Hundreds of persons motored to the scene of the accident. The straw hats of the men and pools of blood and other evidences of the tragic affair were to be seen, as well as the wrecked car partly upside down, having been raised a bit to release the dead man and the other seriously injured one caught under it. It was about as badly wrecked as a car could be. A small tree in its path on the embankment was bent over and broken.

Car Damaged; Driver Escaped.

Miss Marion Dukeman, deputy sheriff, of Bellefonte, escaped injury, but her Ford touring car was somewhat damaged when it skidded on the concrete road north of Griffith's turn and upset on Tuesday evening. Miss Dukeman was driving to Bellefonte and another motorist brought her to her home.

SPECIAL GRANGE PROGRAM

Picnic and Fair at Centre Hall to be Big Event.

In celebration of the 50th annual Encampment and Fair of Centre County Pomona Grange, the purchase of a fine addition to Grange Park and the establishment of the first Grange in Centre county, the committee are planning for the week of September 1—7 an interesting program.

First in importance, a Grange pageant will be given in the open air on Grange Park, September 4 and 5. Several hundred people, men and women, boys and girls, coming from various Granges, committees and schools of Centre County, will take part.

This pageant will be historical and educational, combining both national and Grange history with achievements of agriculture in the past, and, in symbolical scenes and tableaux, the solution of many of the farmer's present-day problems.

The pageant will be under the direction of W. R. Gordon, of the "Rural Life Organization," and beginning the first of August he will give his entire time to its work. No effort will be spared to make it the greatest success in every way.

Many Grange officials have signified their intention to be present during the week. The Secretary of Agriculture has accepted an invitation, and a number of men and women of great prominence in the early history of the Grange in Pennsylvania probably will be there.

Amusements and entertainments of a high grade will be furnished for young and old. There will be several baseball games between members of the Centre county league, and plenty of music. A State College church will present in the auditorium Thursday evening, a play of real worth.

The small children will have a playground arranged for them.

The camp will be enlarged and some changes made necessary by its growth, in the arrangement. The campers whose location may be changed will be notified in advance and given an opportunity to choose another.

The exhibits promise to be superior to those in past years, and a county so large and fertile as Centre should avail itself of the opportunity to show to visitors from surrounding counties, the quality and variety of crops it produces.

CHAUTAUQUA SHORTAGE

Each Guarantor's Share is $5.50 This Year.

The guarantors this year are making up a deficit of about $400 for Chautauqua which is considerably less than last year and which includes a balance of about $45 from last year, the individual share of each guarantor being $5 50. This, however, is discouraging inasmuch as the guarantee was considerably less this year.

The entertainments and lectures were of a pleasing order this year and those who have been attending Chautauqua are praising the program highly. The sale of tickets was not as large as anticipated, however, the total amount realized from this source being about $900 and indicates poor support in general.

There is some doubt as to whether enough guarantors can be secured for assuring the return of Chautauqua next year. Of course, this was true last year when it seemed there would be no Chautauqua for 1923, but the little group of boosters worked faithfully and managed to put over their program. This was done, too, in face of more discouragements than last year.

Rattlesnake is Attraction.

Rattlesnakes are not generally so attractive as the reptile placed on display in a case in a window at the Bush House cigar store yesterday. Many have watched with interest the snake which was caught on Sunday by Arthur (Toots) Wilson, near Orviston. Wilson says he caught the snake by making a loop with a string and lassoing it about the neck as it struck for prey. The snake measures about 3 or 4 feet long and is probably 10 years old, as it has 10 rattles and a button.

Boy Scouts in Camp.

The boys of Troop No. 1, Boy Scouts of America, in charge of the scoutmaster, the Rev. Malcolm Maynard, left on Monday for a 2 weeks stay at Camp Kline on Pine Creek. Mail should be sent to Camp Kline, Jersey Shore, Pa. Visitors' days are Wednesdays and Sundays. The Scouts hope many of their friends will come to see them. The camp location is one of the finest in the state. Many boys from Williamsport are also in camp for the 2 weeks period.

STATE POLICE WATCH CENTRE COUNTY ROADS

Make Information Against Number Who Paid Fines and Costs.

KEEP LIGHTS BURNING

State policemen came here last week because of complaints made that auto drivers in Centre County were flagrantly violating the laws for some time. The orders under which the state officers worked were to strictly collect fines and costs in every instance where any violations were noticed.

The policemen were Harry L. Ireland and James J. McNamara, of the Greensburg barracks. Their method was to lie in wait along the roadside. When they noticed a car pass with no tail light showing, only one headlight or considered the driver reckless, they mounted their motorcycle, soon caught up with the offender, pasaed by and stopped. One stood in readiness with the motorcycle to pursue if the order from his companion, to stop, was not promptly heeded. So far as we know all the motorists stopped promptly and were given cards and informed to appear before Justice J. M. Keichline, where a fine of $10 and costs of $2.50 was imposed for each offense.

Motorists have been complaining that many persons are operating their cars with disregard to the proper lighting laws which states that at least one tail light and two headlights must be burning and buggies or other vehicles must have 2 lights, showing white ahead and red to the rear. It seems most folks using hofsedrawn vehicles on the roads after night do so with no light at all, a flagrant violation of the law which also puts them in much danger with increasing traffic.

Some folks have been disposed to criticize the action of the state police in making information and collecting instead of following the former procedure of punching the registration card for the first offense. The officers stated, however, it was not a case of a personal matter, but their instructions had been to strictly collect from every person they caught, regardless of any considerations.

Indications are that many more persons will be caught. There have been many cars operated with disregard to tail-lights and a few persons have driven after night without any lights, depending on other cars for lighting. This is particularly dangerous.

From some of those caught during the past week, it seemed they had not been making a practice of operating without proper lighting, but in one instance at least it was said the bulb burned out while returning to town. No excuses were taken by the state police, however, and each person noticed was fined.

THEY WON'T MIX

Drink and Gasoline Gets State College Man Into Trouble.

Patrick Donohoe, of State College, was placed in jail in Bellefonte on Monday morning when he failed to furnish bail after Justice J. M. Keichline held him for court in the sum of $1,000.

Donohoe's troubles seem to have come from an attempt to mix drinks and gasoline. He was given a hearing before Justice Keichline on information made by the State College police officer, Mr. Mingle, who charged that he was driving in a zigzag and dangerous way upon the streets of State College, other motorists evading accidents by keeping out of his path. The charge upon which Donohoe was held was operating a motor vehicle while under influence of intoxicating liquor in violation of the state automobile laws.

DeMolay Band Progressing.

The Penn-Centre chapter of the Order of DeMolay is progressing and one of the chief activities is organizing a band, coming along nicely under direction of Frank Wetzler, of Milesburg. A full ceremonial is to be put on about the middle of August when it is expected to take in 40 new members. The band has arranged for their first engagement at Curwensville at a Masonic picnic on Thursday, Aug. 28. Practice is held Friday nights.

Ford Coupe Damaged.

The Ford coupe of Fred Herman, driven by his son Joe, was considerably damaged about the front on Saturday evening when it got beyond control and plunged from the concrete road at Pleasant Gap, into the ditch. The car was towed to the Beatty garage for repairs.

LATEST RULING TO REGULATE FRUIT JUICES

Bans Use of Dandelion and Fruits for Making Wines.

MUST PRESERVE CIDER

The latest ruling from the Internal Revenue Department in Washington, D. C., is of much interest to many of our readers, the part relating to cider affecting practically all farmers.

The ruling was made public on Saturday by Commissioner Blair of the Internal Revenue Bureau.

Manufacture of cider and other non-intoxicating fruit juices is authorized without the formality of applying for a permit, but persons who make them must add preservatives to prevent "further alcoholic fermentation." Fruit juices may not be lawfully used, the regulations stipulate, for beverage purposes after becoming intoxicating.

Under a ruling superseded by the new regulations, manufacturers of fruit juices have not been held responsible for any natural reaction of the liquid.

The new regulations define "preserved sweet cider" as that in which alcoholic fermentation has been prevented by the addition, immediately upon pressing," of benzoate of soda in the proportion of not less than 4 to 4½ ounces to each barrel of 50 gallons, or by immediate sterilization. The presence of 4 per cent. of acetic acid will be considered as authentic vinegar.

With regard to the home manufacturer of non-intoxicating cider and fruit juices, the regulations say:

"Any person may manufacture cider and fruit juices for use exclusively in his home without obtaining permit or giving bond. Such manufacture need not be done at the home of the producer, but such person may take his apples or other fruits to a custom or commercial mill and have the juice expressed and removed to his home, but such removal must be accomplished immediately after the juice is expressed.

"If the cider or fruit juice is intended for beverage use it must, if intended for other than immediate consumption, be so preserved and put up as to prevent further alcoholic fermentation. The processes by which fruit and vegetables are ordinarily prepared for winter use are familiar to most housewives, and it is expected the same care will be exercised in sterilizing and bottling cider, grape juice and other juices as is done in the case of other preserving operations so that such juices will not, when consumed for beverage purposes, be found to have 'worked,' or fermented, so as to become intoxicating."

The use of "dried fruits, dandelions, rhubarb and similar plants," for the production of "fruit juices" under the regulations is specifically prohibited. Provision is made, however, for the issuance of a permit to the "head of a family intending to produce in any one year not to exceed 200 gallons of a fruit juice, other than cider, any part of which may ferment so as to contain as much as one-half of one per cent. of alcohol by volume." Such householder is required to apply to the Internal Revenue Bureau for the formal permit "at least five days before commencing operations."

Warning is given that any persons selling unpreserved sweet cider, even though it is not intoxicating at the time of sale, to be consumed after an illegal alcoholic content has developed, is guilty of violating that section of the prohibition law which deals with the sale of alcoholic beverages.

Injured by Shallow Dive.

A shallow dive caused Philip Mignot, a young man of Bellefonte, to be very painfully injured last Thursday while he was swimming at the Hughes pool. The pool is being put into better shape by draining and refilling with clean water, running water to be kept changing through it continuously. Mignot attempted a dive from the platform and the water, usually kept at 6 feet, was only about 4 feet. He failed to straighten out in time and his head struck the concrete bottom.

Gasoline Tank Car Wrecked.

Gallons of gasoline—how many, could not be ascertained—were spilled and soaked into the ground on Saturday afternoon when a tank car on the local Lewisburg freight train upset and wrecked at the Paddy Mountain tunnel. The car was damaged considerably. A box car was also derailed and it required much effort to clear the tracks, traffic being delayed for about six hours. None of the crew was injured.

CAUGHT TWO FAWNS

Graceful Little Deer Taken to Ingleby Game Preserve.

Game Protector Thomas Mosier, of Bellefonte, had two very pretty little deer, fawn bucks about a month old in each instance, which he took to Ingleby yesterday morning to be placed in the game preserve in care of Harry Wingard, the preserve keeper, who has handled a number of fawns and reared them successfully, making tamed pets in several instances.

One of the fawns was brought in with the cattle when the young son of Cleon Philips, tenant on the John Zeigler farm, at the Clinton County line, 6 miles east of Jacksonville, brought the hero in from the field on Monday afternoon. The lad said he thought it was a calf. When he went to put it in the barn, however, it balked and refused. The lad's father informed Justice of the Peace A. A. Pletcher, of Howard, who in turn informed Mr. Mosier. He then went to the Philips home and brought the fawn to Bellefonte on Tuesday morning.

The other fawn wandered into the barnyard at the Harvey Truckenmiller farm at Lamar on Sunday morning. Mr. Truckenmiller called Mr. Mosier, who went to Lamar at once and brought it here.

Both little deer attracted considerable attention. They were third and fourth respectively to come into Mr. Mosier's keeping this year. The first was caught early in the year and died. The other was killed recently after its legs had been cut off by a mowing machine.

HAD MIRACULOUS ESCAPE

Tree Wrecked Sedan; Occupants slightly Injured.

Two men, whose names could not be learned but who were said to be from Reading, had a miraculous escape from serious injury or death yesterday morning as they motored toward Bellefonte along the state highway in Nittany valley.

The men were in a Ford sedan and were driving near the Clevenstine farm, east of Zion. As they passed what might be termed a "double tree," one part of the tree fell and struck the sedan, wrecking it completely. The tree apparently struck the top of the sedan about the middle and crashed just back of the front seat, on which both men were seated. Fortunately, the rear seat was unoccupied.

The straw hat of one of the men was brushed from his head and he was also scratched slightly. The other had a few scratches on one hand but this seemed to be the extent of their injuries. Many persons have viewed the wreck and marvel that the men could possibly have escaped.

McCauley—Clarke

A quiet wedding was solemnized Wednesday morning, July 11, at Hollidaysburg, when Miss Hildah Marie Clarke became the bride of Edwin L. McCauley, a former Hublersburg boy, but recently of Altoona. After the ceremony the bridal party left for an extended wedding trip. On their return they will start housekeeping in their newly furnished home on Blair St., Hollidaysburg. Congratulations and a long and happily wedded life.

Darlington—Chambers.

Elisha Darlington and Miss Helen S. Chambers, of West Chester, were united in marriage on Saturday morning at the home of the bride's uncle and aunt, Mr. and Mrs. William Chambers, of Bellefonte. The Rev. E. E. McKelvey, pastor of the Methodist Episcopal church, officiated. Miss Chambers is a daughter of the late Mr. and Mrs. Edward Chambers, former residents of Bellefonte.

McCool—Gray.

John B. McCool, Clinton County farm agent, was married Saturday in Holy Trinity Presbyterian church, Philadelphia, to Miss Emily A. Gray. The marriage was the culmination of a romance which began when they were students at the Pennsylvania State College.

Eisenhuth—Orndorf.

Saturday morning, July 21st. Mr. Orvis T. Eisenhuth and Miss Edna A. Orndorf, both of Woodward, Pa. were married by the Rev. Dr. Ambrose M. Schmidt, at Bellefonte, Pa. Their many friends join in wishing them a happy voyage over the sea of life.

Williams Reunion at Martha.

Williams reunion will be held in Miles' grove, Aug. 18th. A program will be announced later. Any persons desiring to secure concessions for this day may bid upon them and send bids to G. E. Ardery, Secretary, Martha, Pa. not later than Aug. 6th.

FIRE AT HOOVER FARM BURNED BARN AND CARS

Hay Crop, Implements, Sheds and Two Cars Destroyed.

ESTIMATED LOSS $8,500

Fire on Friday afternoon at 2 o'clock destroyed the big barn, nearby buildings including the implement shed, corn crib, chicken houses, pig pen, together with 2 cars, a Franklin and a Hupmobile sedan, on the country place of Grant Hoover, about 2 miles southwest of Unionville, along Dix Run. A short circuit in the sedan is supposed to have caused the costly blaze which resulted in a total loss estimated at $8,500, partly covered by insurance.

Mr. Hoover, who has been a resident of Williamsport since moving to that city from Bellefonte some years ago, accompanied by his 2 sons, George and Eugene, had just motored to his country place in the sedan and run it onto the barn floor, leaving to hike about on Dix Run. They had not gone far when heavy black smoke was noticed about the building. They hurried back to the barn, but the flames spread very quickly and burned with such intense heat that it was impossible to save anything but the house, apple trees between the barn and dwelling making this possible.

The barn was of good size and the loss is placed at $4,500 on that structure. The loss of the shed and outbuildings is estimated at $1,000 and the implements, cars, hay and other contents, at $3,000.

Mr. Hoover has been using the place, which embraces 1,500 acres that has been planted with vast stretches of forestry tree seedlings, as a country club and had planned converting the barn into a garage. It is said he will now put up a garage separately but has not decided about replacing the barn or other buildings.

KILLED NEIGHBOR'S GOOSE

Dominick Press Settled, Paying $15 for Goose and Costs.

A rather novel and unusual hearing was held before Justice J. M. Keichline, of Bellefonte, on Monday evening, when Dominick Press, of nearby town, was arraigned for killing a goose owned by his neighbor, John Buswick. It cost Press $15.

The testimony tended to show that Buswick, who made the information, did not keep the goose in a pen and it was wandering on lands of the American Lime and Stone Company, when spied and killed by Press, who alleged he thought it was on his property. After hearing the testimony offered on both sides, Justice Keichline arranged for a settlement, Press to pay his neighbor the value of the goose and the costs incurred in bringing suit.

Collided With Truck.

A Ford coupe, driven by Samuel Capperal, of Valley View, was considerably damaged on Sunday at noon, when the driver passed another car, failing to notice a truck approaching. The coupe collided with the truck, which was being used to transport milk, and both were thrown from the road into the cinder dump near the Titan Metal works. Some of the milk was spilled but the truck was not damaged to any marked extent. Fortunately, nobody was injured.

Director Potter's Comment.

Director Ellen C. Potter, of the department of welfare, at Harrisburg, who recently visited institutions in Centre County made the following comment: "I think that the outstanding thing that interested me at the time of my visit was the possibility of a real co-operative effort that should include Rockview and State College. Each institution has the opportunity of being of real service to the other one and I hope that as we go on developing our State program that we shall be able to accomplish results."

Accidentally Shot.

Herbert Justice, a young man of Colerville, was shot through the palm of his left hand and the fleshy part of his left leg on Tuesday while cleaning a revolver at the home of his parents, Mr. and Mrs. James Justice. He had not noticed a cartridge in the revolver and it was accidentally discharged. A local physician is in charge of the wound and no serious results are anticipated.

Evangelical Festival Postponed.

The Evangelical Brotherhood festival which was to be held at the lawn near the creamery, on Phoenix Ave., on Friday evening, has been temporarily postponed.

FRIENDS NOTICED IMPROVEMENT

Wonderful Results from Lydia E. Pinkham's Vegetable Compound

Beloit, Wis.—"My female trouble was brought on by overwork. I had worked in stores and had to do heavier work than my strength could stand, and had to be on my feet most of the time. Finally I had to give up this work entirely and stay at home. Doctor's medicine did not give me much relief, and my mother wanted me to take Lydia E. Pinkham's Vegetable Compound. I took a couple of bottles of it and thought it did not help me as much as it should, so I gave it up to try something else. Nothing I took helped me much, so I finally decided to give the Vegetable Compound another trial and to take enough of it to make sure it would help me. I have taken it over a year now and it has brought wonderful results. I have gained from 93 to 110 pounds and am keeping house now. My friends all notice the change in my health. I will be glad to answer all letters that women write to me about the Vegetable Compound."—Mrs. W. G. MONSON, 1515 Park Ave., Beloit, Wis.

Mrs. Monson is willing to write to any woman suffering from such troubles.

Pure and healing a grateful aid on countless occasions

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful, clear complexion.

Be sure to ask for the double-strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

Confessed Proxy Serves Bootlegger's Two Months

Robert Chapman, of Chicago, has confessed that he served a 60-day term in jail for Camel Nicrito, who was convicted of being a bootlegger. Chapman is being held on a conspiracy charge. He told officials he agreed to serve as proxy for Nicrito, who is now on his way to Italy, for $100 and an additional $5 for every day he served.

THIEF KILLS COP AND BURIES BODY IN CAVE

Hundreds of Searchers, Working Day and Night, Finally Unearth Bullet-Pierced Body.

Cleveland.—Kidnaped by a man whom he had arrested for stealing an automobile, Patrolman Dennis Griffin was murdered by his prisoner. A few hours later the officer's clothing was found in a pile of ashes. A day later searchers found the officer's body buried under two feet of ground in a cave 35 miles from the city.

After Officer Griffin arrested his man, John L. Whitefield, he placed the man in the stolen car and began the drive to the police station. He never arrived. Other officers, aided by scores of men, began a search.

One man finally told police that he saw the officer and Whitefield riding together in a car, that he heard a shot and that the policeman slumped forward in his seat. Boy scouts and school children then joined the search.

Searchers found the ashes of the officer's uniform, all burned but one button bearing his number. A day later men digging in a small cave on a hillside found the policeman's body. He had been shot twice through the head and once through the stomach. No trace has been found of Whitefield.

Chinaman Chooses Jail Rather Than Pay Fine

San Francisco.—Ng Yow is in jail here because he wanted to be.

Found guilty of having Chinese lottery tickets in his possession, he was given the alternative of a $10 fine or five days in jail, and he chose the jail sentence. Judge McAtee remarked it was the first instance in his experience of a lottery company refusing to pay the fine of an agent who had run afoul of the law. Such was not the case, however.

The company always settled the fines, but Ng Yow argued, why should he work hard for $1.50 a day when the company paid $3 for every day passed in jail, where there is no work to be done?

Woman Graduate Gives Her Blood to Help Alma Mater

New York.—Miss Grace Newman of Brooklyn, Adelphi college graduate, gave her life's blood as part of her pledged contribution toward the school's $300,000 building and endowment fund.

The blood—a pint and a half—was sold for $50 by Miss Newman to the post graduate hospital in a transfusion operation.

When the campaign for funds began Miss Newman pledged herself to raise $312.

"I could think of no easier way to earn $50," she smiled. "We Adelphi girls all mean to do all we can. Honestly, the talking about it is much harder than the operation itself."

Nashville Burglars Take Nothing But Heirlooms

Nashville, Tenn.—The arrest and confession of a modern Oliver Twist here may solve the mystery of who burglarized the home of Mrs. Leslie Warner of $5,000 worth of antiques last April, and followed by entering 18 Nashville homes on as many successive nights, stealing only heirlooms.

Roy Bell, a sixteen-year-old boy, and M. O. Harbin, forty, are in the city jail, charged with implication in the burglary of the Warner residence, and officers have a confession of the youth that he stole the antiques when forced to by a band of men.

Bigamist Is Freed to Save Family From Want

Salem, Ore.—Capt. J. D. Wetherill, seventy-five, under sentence of two years in the penitentiary here for bigamy, was liberated for a month. He was released that he might assist in completing a mining deal in British Columbia and thereby save his family from destitution and also protect others interested with him in the mine. He has pledged himself to return.

Loud "Amens" to Blame.

Detroit, Mich.—Barred from Berea tabernacle because they shouted too loud "amens," Edward and Alonzo Bates have filed suit for an injunction against the congregation. The brothers ask that the congregation be restrained from keeping them out of church.

Beat Bear in Two-Mile Race for Life.

Superior, Wis.—Expecting to trap a tiny bear cub, Richard Susans, trapper, started out from his home. When he returned he was racing for his life. The mother bear had interfered. Susans got the cub, however, but ducked into his cabin just in time to escape about 200 pounds of fighting-mad bear.

Fighting Bugs With Aircraft

Experiments Show Poison Can Be Distributed With Remarkable Precision.

Washington, D. C.—Announcement that the U. S. Army air service will use a motorized balloon to make a chemical attack upon the gipsy moth in New Hampshire recalls the interesting pioneer experiments in fighting insects with aircraft.

C. R. Neillie and J. S. Houser, in a communication to the National Geographic society, related their practical test of distributing insecticides from aloft as follows:

"In these very modern times one should be prepared to expect the unusual, but to be told upon inquiry for a man at his office that 'He is up in the air; I don't know when he will come down' is so ultra modern that the average person would be taken somewhat aback.

"Such, however, was the experience of the writers one summer day during the course of the work herewith reported. And after a short time, the one for whom inquiry was made did safely 'come down.' This was Lieutenant J. A. Macready, acting chief of the flying section of the government's aviation experimental station at McCook field, Dayton, Ohio—the man who piloted the machine which was an epoch maker in the annals of insect warfare.

"Two years ago there occurred in Ohio three full broods or crops of the caterpillars, each sufficiently numerous to defoliate completely the grove in which they appeared. Some groves put out three full crops of foliage and each in its turn was wholly consumed by the ravenous worms.

"Our work was directed against the second brood of caterpillars working on the second crop of foliage.

Method of Attack.

"The plane used was a Curtis JN-6 equipped with a hopper for carrying and liberating the poison powder. This hopper was secured to the fuselage of the plane by the side of the observer's seat. It consisted of an irregularly shaped flat metal box with a capacity for holding a little more than 100 pounds of dry arsenate of lead powder.

"At the bottom was arranged a sliding gate, operated by a handle accessible to the observer in the plane. At the top of the hopper was a crank, connected by a sprocket chain to a revolving mechanism in the bottom, which when placed in motion dropped the poison powder through the previously opened sliding gate.

"Immediately upon leaving the hopper the dust dropped into the 'slip stream'—the violent air current set up by the revolving propeller—and was thrown into violent agitation in a dense white cloud which trailed out behind the moving plane as if the machine were on fire and belching large volumes of white smoke.

"The catalpa grove in which the dusting was done was situated on level ground and had been planted for the growing of post and pole timber. It was a rectangular plot 800 feet long and 325 feet wide and contained approximately six acres. The trees, 4,815 in number, were from 25 to 30 feet tall.

"The plane flew at a speed of eighty miles an hour at an altitude of from 20 to 35 feet and in a line 53 yards to the windward and parallel to the grove. The dense cloud of poison dust thrown out behind the moving plane was grasped by the wind and floated through and over the grove, covering the foliage in its passage.

"We feared that the dust might all settle on the trees in the immediate foreground, but to our surprise we observed that little currents of air which we termed 'booster currents' were rising in the grove and these had a tendency to toss the settling dust cloud upward, whereupon it would be grasped by the wind blowing parallel to the earth's surface and thus carried onward, even to and beyond the far side of the grove.

Poison Well Distributed.

"Not a tree could be found, and many were climbed and examined, whose leaves did not bear particles of the deadly poison, easily detected by the unaided eye.

"In all, the dusting plane passed the grove six times and distributed about 175 pounds of the poison. Since each passage required but nine seconds, the total time consumed in the actual work of dusting was 54 seconds, thus establishing a world's record for speed in applying insecticides to forest areas.

"The outstanding feature of the application was the remarkable precision with which the poison could be placed at the point intended, thus dispelling the idea expressed by many before the test was made that the poison dust would be tossed willy-nilly by the air currents—wholly beyond control."

Paris to Cut Red Tape in Shopping System

Paris.—American women who have shopped in Parisian stores and gone through the nerve-racking waits involved in the slow French system of paying will be glad to know that improvements are in progress.

The leading stores are now reorganizing the sales and wrapping systems; each department will have an electric cash register, and the girls will do their own wrapping. The improvements thus begun will do away with the tedious waits of purchasers and their rushes to get through the crowds to the cashiers' desks.

Pluck of Mother Wins Parole for Her Son

A mother's self-sacrificing heroism in coming through a railroad wreck and refusing hospital treatment in order to hurry to Philadelphia to make an appeal for the liberty of her son won a parole for Frank O'Brien, of Binghamton, N. Y.

Mrs. O'Brien arrived in court with her clothes torn and her arms severely bruised as the result of the train wreck.

Mother's Stocking Loses $2,400 Saved by Twins

New York.—Marjorie and Thelma White, sixteen-year-old twins, made a big hit in dancing and singing with Fred Stone in "Tip Top," which just ended a long season on the road. The White twins were accompanied by their mother, Mrs. Harry White of 5000 Broadway.

The mother and daughters went through the trying experience of being snowbound for three days last February on the Montana prairies with the "Tip Top" company, after which Fred Stone, comedian, embraced religion in Butte. The twins witnessed the conversion.

Mrs. White is a frugal woman and while the company was on the road she laid aside $2,400, which she pinned in her stocking.

After their matinee performance at the Riverside theater the twins returned with their mother to their apartment.

When Mrs. White, with her twins, reached the theater for the evening performance she felt a pin sticking in her leg below the knee. It was a safety pin used to attach the $2,400 in large bills to her garter. The pin got loose and the season's hard-earned profits were lost.

"Don't cry, mother; we can earn more money," said Marjorie with a smile as her mother bemoaned the loss.

Collect Songs of Great War

Bulky Volume Reposes in the Library of Congress at Washington.

Washington, D. C.—Do you remember:

"How you gonna keep 'em down
on the farm
After they've seen Paree?"

The library of congress in Washington has just completed a bulky collection of songs of the World war. But the overseas veteran who in later years consults it for some of the old-time favorites which he sang on the march in his doughboy days, will search its pages in vain. These songs are conspicuously missing.

The answer is simple.

The censors who compiled the book were unanimous in the opinion that the songs the soldier himself composed and sang spontaneously on his marches would not bear the light of public print. Except as they linger in the memories of their composers and chanters, these old songs are doomed to die.

Mostly Home Songs.

Consequently the book is largely a collection of music hall successes, sung on this side of the water to keep up the morale of the folks at home, or thrown on the screen at Red Cross huts and "Y" canteens for the enlightenment of the A. E. F. The unexpurgated versions of these songs which the boys revamped and sang to keep up their spirits as they marched into death and destruction will never see the light of day in this or any other collection of patriotic songs.

To Cohan's song hit, "Over There," is rightfully given first place in the library of congress collection. Following hard upon it is Irving Berlin's "Oh, How I Hate to Get Up in the Morning."

A few of the songs there are which were hits both at home and with the A. E. F. Among these are "Madelon," the great French marching song, by all odds the finest thing in the musical line that came out of the war; also "Keep the Home Fires Burning," which, because of its sentiment and rhythm held a great appeal for the boys, and the "Long, Long Trail," which was of tremendous popularity as a marching song.

But such masterpieces as "K-k-k-katy, Beautiful Katy," and "Keep Your Head Down, Fritzi Boy," although prime favorites with the A. E. F., lived over there only in their revamped versions, depicting not the original Katy, but the horrors of K. P., and "Keep Your Shade Down, Mary Ann," and other verses which cannot be reproduced here.

"Joan of Arc" may have been good stuff for the folks back home, but "Mother, Take Down Your Service Flag, Your Boy's in the S. O. S.," was far more admired by men in the ranks, while the war risk insurance classic, "Ten Thousand Dollars to the Folks Back Home," sung to the wailing strains of the "Dead March" from "Saul," superseded all other melodies when a platoon was returning from the bombing field.

Print Hospital Songs.

Thanks to the refining influence of the Red Cross nurses, it has been possible to produce a few of the hospital songs.

The following one attained great popularity at the base hospital at Savenay, where the wounded were routed home. It runs to the tune of the "Old Gray Bonnet":

Get out that old broken fibula
And patch it to the tibia
And pack the whole d—d thing in a
cast—

Still another of anatomical significance walled to the tune of the "Good Old Summer Time":

In the base at Savenay
Where the sick and wounded lay,
Running up their temperatures,
More and more each day—

The magnificent song of the artillery, "When Those Caissons Go Rolling Along—Hear Them Rolling," left its mark on the A. E. F.; so did "The Marine's Hymn," and "Oh, the Infantry," but "Goodby, Broadway, Hello, France" is a stranger to the soldier who really did the fighting.

In spite of frantic appeals to the music publishers at home, few came across with anything which left its stamp on the doughboy overseas.

It was with a song of his own composition, a ditty reeking with the open-air corseness of the battalion minstrel and wit, that he bore the agonies of reveille or the last lap of a terrific march.

"Perfect" Youth Gets Silk Flag

Gerwin Neher, age seventeen years, considered the hundred per cent American youth by his fellow students in the high schools of Los Angeles, being presented with a silk flag by J. Harvey McCarthy.

1,453 Words Sent in 6 Minutes by Telautogram

Paris.—A test of the Belin telautogram, a method of sending written script by wire, between Lyons and Malmaison, showed the machine capable of sending 1,453 words in six minutes at a cost of 20 francs. By ordinary wire it would require 20 minutes and cost 218 francs, about $33.

NEVER SAW ITS LIKE IN 67 YEARS

"I had suffered for twenty years, and it's hard to describe how delighted I was when I saw Tanlac was helping me," said John F. Beatty, Morton, Pa.

"I have been a great sufferer from indigestion and it seemed that nothing would give me relief. I looked forward to my meals with dread, for my food just filled me up with gas and caused such pains I could hardly bear it. Many a time I lay awake all night long, and my troubles kept me run-down and weak.

"Finally I decided to give Tanlac a trial, and today I am feeling fine. I enjoy my meals without a minute of suffering afterward, get plenty of sleep, and never have an ache or pain of any kind. I am now sixty-seven years of age, and I've never seen or heard of a medicine to equal Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—Advertisement.

Jazzy.

Jack—Giving a dance, eh? Who's going to furnish the music?

Clarence—Won't need any; there's a boiler factory next door.

To Have a Clear, Sweet Skin

Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Advertisement.

So Far, So Good.

"Will you marry me?" "I like your nerve!" "How about my other qualifications?"

Safe instant relief from CORNS

One minute—and the pain of that corn ends! That's what Dr. Scholl's Zino-pads do—*safely*. They remove the *cause*—friction-pressure, and heal the irritation. Thus you avoid infection from cutting your corns or using corrosive acids. Thin; antiseptic; waterproof. Sizes for corns, callouses, bunions. Get a box today at your druggist's or shoe dealer's.

Dr Scholl's Zino-pads

Made in the laboratories of The Scholl Mfg. Co., makers of Dr. Scholl's Foot Comfort Appliances, Arch Supports, etc.

Put one on—the pain is gone!

MELLON NOT TALKATIVE MAN

Secretary of the Treasury Will Never Make Reputation as a Great Conversationalist.

Two Scotsmen, noted for their rarity of speech, were playing golf. Up to the seventeenth hole neither spoke a word.

It began to rain and Sandy observed: "Shall we quit?"

"Chatterbox," muttered his opponent, as he drove off the final.

Secretary Mellon is silent like that, writes "Girard" in the Philadelphia Enquirer. If, as our copybooks informed us, silence is golden, that able banker came by his great wealth in the most natural way.

"This is not a talkative cabinet"—that from a Philadelphia coal man often brought into contact with Mr. Hoover and others of the presidential family.

"But," he continued, "Secretary Mellon can say less in a day than all the rest of them put together."

Really Great Idea.

"What! You are planning to go to Vienna?" exclaimed Gutenach. "But that will cost you a fortune."

"Oh, not so much," replied the other. "You see, I'll have my youth restored by Dr. Steinach and come back on a child's ticket."

Sand is one of the important ingredients in the elixir of success.

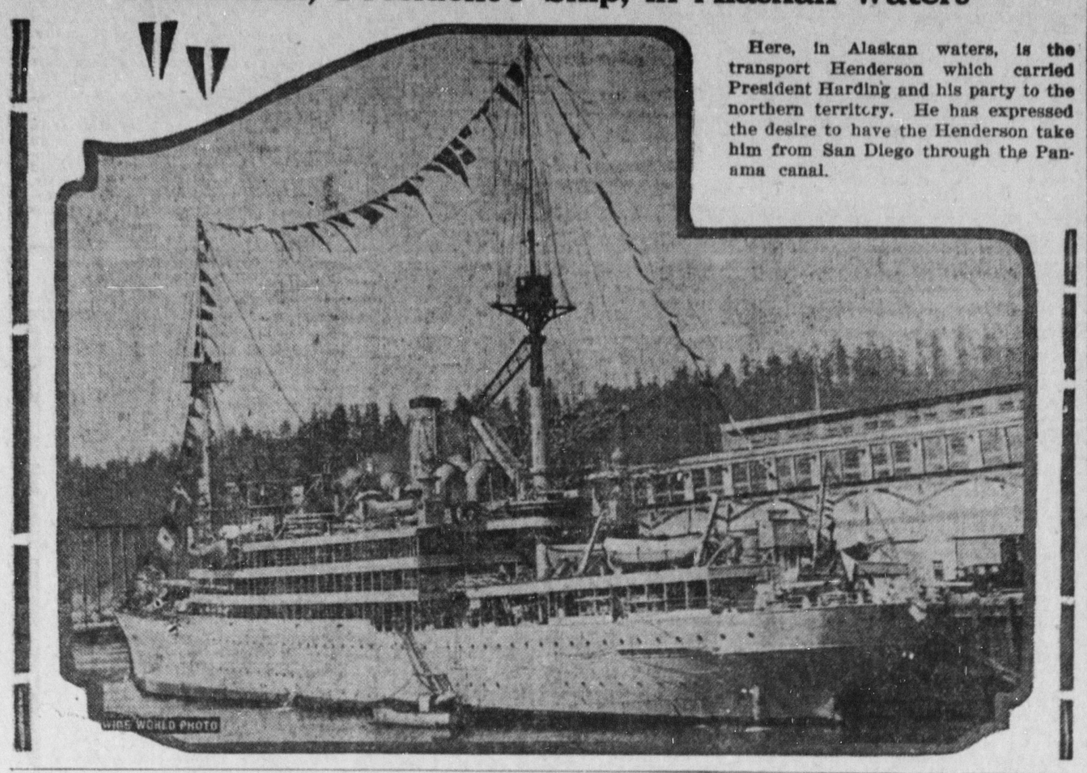
Henderson, President's Ship, in Alaskan Waters

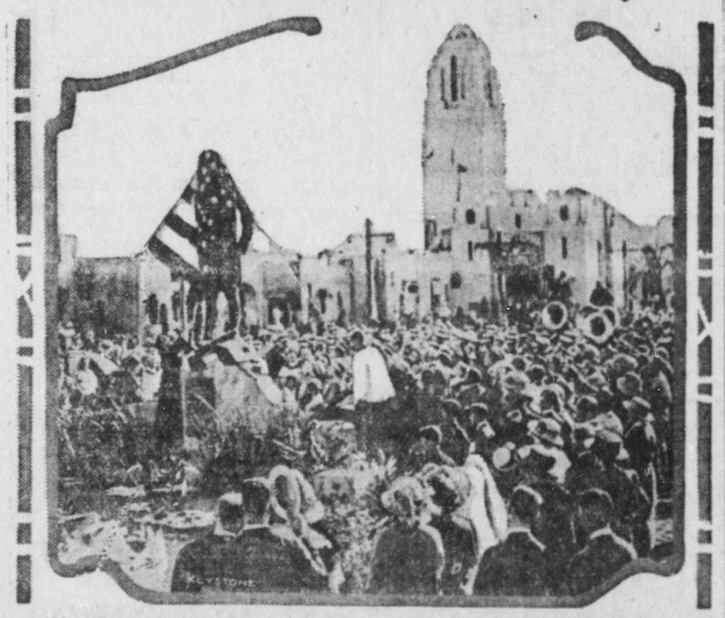


Here, in Alaskan waters, is the transport Henderson which carried President Harding and his party to the northern territory. He has expressed the desire to have the Henderson take him from San Diego through the Panama canal.

Blind Girls Also Now Enjoy Camp Life

For the first time, sightless girls are this summer enjoying camp life just like the thousands of summer camping girls of normal vision—hiking, swimming, boating, calisthenic drill, even to building the camp fires, doing the dishes and caring for their own beds and clothes. The experiment is being conducted at Camp Munger, near Lake Barnes, in the Palisades Interstate park by the New York Association for the Blind. The girls in the illustration are taking a boat ride before their daily swim.

At Monroe Doctrine Centenary



Mrs. Rose Gouverneur Hoes, great-granddaughter of President Monroe, unveiled the statue of the former president to commemorate the centenary of the Monroe doctrine, at Los Angeles, Cal. Many celebrities, diplomats of Latin-American countries and others attended the ceremonies at the Monroe Doctrine Centennial and Motion Picture Industrial exposition.

CARICATURING CURZON

The unfriendly feeling in Russia for the English is illustrated by this caricature of Lord Curzon which led a procession in a recent anti-British demonstration.

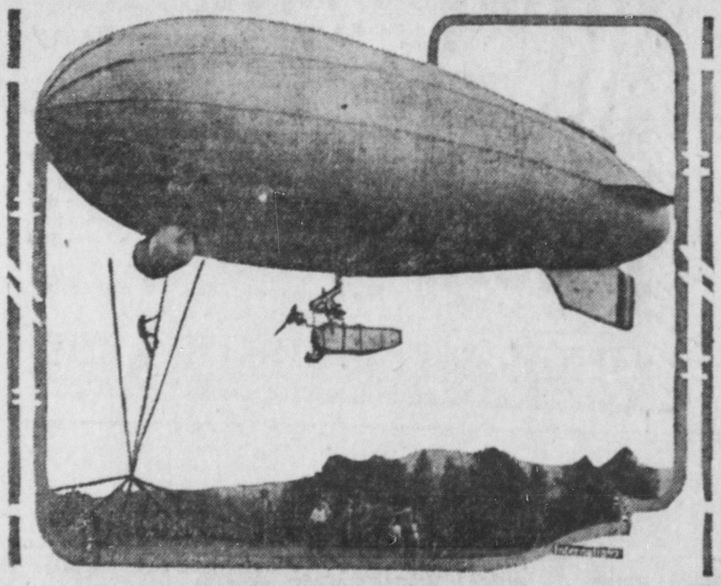
MADE WOMAN'S RECORD

Mrs. Bertha A. Horchem of Ransom, Kan., was less excited over the fact that she piloted an airplane higher than the elevation of Mont Blanc, at St. Louis field, to make an official world's record for a woman, than many persons are about their first aerial hop. Mrs. Horchem attained an altitude of 16,300 feet, 400 feet more than three miles. Mont Blanc is 15,781 feet high.

Navy Fliers After Schneider Cup

Here are the American navy's entries in the Schneider Cup race to be run at Cowes, Isle of Wight, England, September 27 and 28. They sail on August 18 on the Leviathan and are taking navy planes with them for the race, a Curtiss racer, a navy Wright and a TR ship. The race, which is for seaplanes, is run in two events, one of landing and taking off from the water and of ease of riding at anchor, and the other a test for speed over a course of 240 miles. Our entries, left to right, are: R. Irvine, T. W. Wead, D. Rittenhouse and A. W. Gorton, all senior grade lieutenants.

Balloon Helps War on Gypsy Moth



Above is shown a view of the balloon sent to Henniker, N. H., by the Department of Agriculture to aid in the fight on the gypsy moth which has been damaging and destroying crops. The balloon rises a hundred feet above the ground and, by means of a series of sprayers, covers the allotted territory with a powder which kills off the moths. Twenty-five pounds of the powder is sprayed over one acre in five minutes.

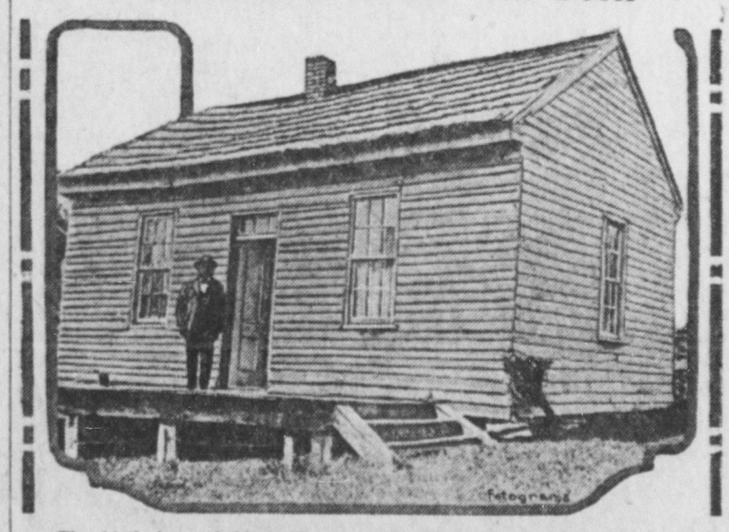
GERMAN BELL OF RHINE

This, the largest bell in the world, regarded as the finest work of art in bellcasting in existence, has just been finished. It is to replace the famous bell of the cathedral of Cologne destroyed during the war by bombardment from the air. The bell was paid for by popular subscription and is called the German bell of the Rhine. It bears the legend: "St. Peter, I have been called to the defense of the German land, born of the German woe, I call all to unity."

IN SOCIETY SOON

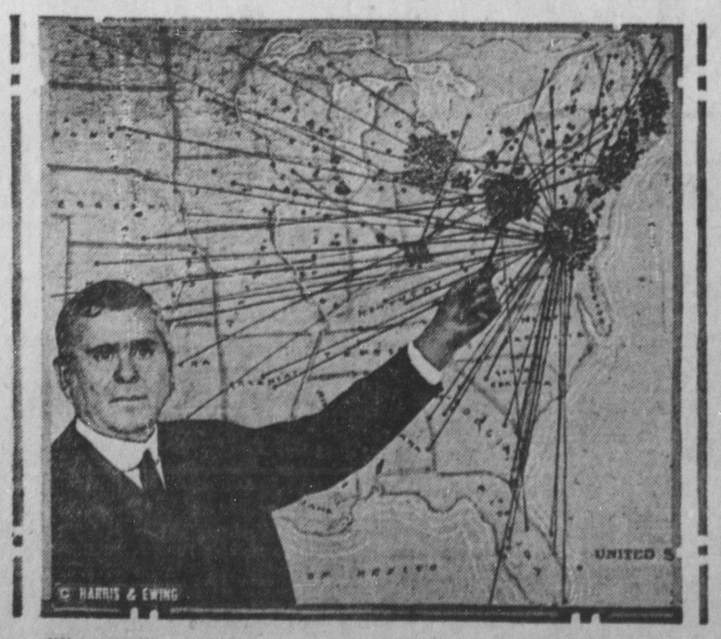
Miss Evelyn Gordon, attractive and charming daughter of United States Attorney and Mrs. Peyton Gordon. Miss Gordon makes her bow to society this coming season.

Where Mark Twain Was Born



The birthplace of Mark Twain at Florida, Mo., a short time ago was just saved from the wreckers, and moved across the street from its former location. Then the idea of a memorial park for Mark Twain was started. It is well on the way now, and, it is hoped, will soon be presented to the state or nation as a permanent memorial to the great author. The Mark Twain home is a slab-shingled, ill-constructed two-room cottage.

Checks Up "Health by Radio" Talks



When you listen to health lectures over the radio telephone, such as, "Do You Sleep Well," and "How to Feed the Baby," they are checked up for accuracy by Dr. B. J. Lloyd of the United States public health service, who is seen in this photograph indicating on a map the extent of the service known as "Health by Radio."

EARTHQUAKE SHOCKS

Centre County Residents in California Fear Them.

Centre County folks who have moved to California and reside in that beautiful state of the Pacific coast, in writing to home friends, have frequently stated there is nothing they fear as they do the earthquake shocks which sometimes visit that state. That they had some of the frightful experiences this week is certain for earthquake shocks of considerable proportion were reported.

The entire tier of Southern California counties was shocked by an earthquake of from 11 to 20 seconds' duration at 11:28 o'clock Sunday night, San Bernardino, where the greatest damage was caused, feeling a second heavy tremble at 1 o'clock Monday morning.

Three sleeping men were injured seriously at San Bernardino when roofs fell in. Although there have been no reports of deaths, much damage was caused to property, buildings on streets running east and west being the chief sufferers.

In San Bernardino the Hall of Records, in the Court House group, was badly damaged, tons of rock being torn loose from the walls.

The falling debris crashed through the roof of a rooming house adjoining, critically injuring George R. Fisher, who was sleeping, and other roomers were thrown into a panic and rushed into the street partly clothed.

Plate glass windows in a number of business establishments were shattered. Walls of numerous buildings and sidewalks were cracked. Telephone communications were cut off, adding to the excitement. Street lights were out when a number of wires went down.

Chimneys on residences throughout the city tumbled over.

Several thousands bricks were knocked out of the Santa Fe machine shop and there was other damage to that plant.

A pall of dust from falling bricks hung over San Bernardino for 5 minutes after the first shock.

At the Southern California State Hospital in Patton, where approximately 2,500 patients were quartered, the shock rocked the buildings. In one wing much plaster fell. The patients were terrorized, but were quieted by attendants. Several small buildings was damaged. No one was injured.

At Redland, windows in many stores on streets running east and west were broken.

The corner of a feed store fell in.

The side wall of a 2 story garage fell on a 1-story furniture store next door.

All burglar alarms in the Hollywood district of Los Angeles were set off by the earthquake, police say.

Plaster fell from the walls of a restaurant in Los Angeles and the diners started to run until the leader of the orchestra reassured them.

The prisoners in the Los Angeles jail were panic stricken.

New Seeding Suffers.

Reports are coming from sections of the state where the drought has been severe that the young clover in wheat stubble is nearly all dead. In many cases, farmers report that there appears to be little or no timothy to help out the scarcity of clover. Although late rains may bring on enough clover to make at least partial stand in some fields, indications point to a short clover crop next year with no clover sod to plow the following year. This situation unless remedied, will prove a serious handicap to the farmer. A clover crop may still be secured for next year if labor and time are available to prepare the seed bed, says J. B. R. Dickey, extension specialist at State College. "Before preparing to re-seed examine the present stand carefully and be sure that all chance for the germination of the seed has passed."

Many Special Fishing Permits.

The department of fisheries has issued more than 23,000 permits for use of outlines and spears or gigs since January 1, N. R. Buller, commissioner of fisheries announced Monday, and many requests are being received for permits for the use of fish baskets or eel racks. During the season which runs from August 15 to November 15, the average annual catch of eels with this devise is estimated by Mr. Buller at 200,000 pounds.

Erecting New Stands.

New football stands that will increase the seating capacity of Beaver Field to between 16,000 and 20,000 are now being erected by athletic authorities of the Penna. State College. The stands will be of wood on concrete piers, with temporary bleachers in front and on the ends. It is expected to have the new stands available in time for the big home games with Navy and Georgia Tech next fall.

Real Estate Transfers.

Recorder William H. Brown has recorded the following real estate transfers:

Emma Grossman to John H. Durst, tract in Potter Twp; $225.

Frank D. Gardner, et ux, to Chas. D. Louck, tract in Ferguson Twp; $350.

A. F. Markle to Frank A. Keller, tract in College Twp; $1,900.

G. F. Breon, et ux, to Ammon M. Snook, tract in Penn Twp; $150.

George M. Demchok, et ux, to Demko Kopcik, tract in Rush Twp; $1,558.50.

Philipsburg Coal & Land Co. to Andrew J. Buckeye, tract in Rush Twp; $200.

John H. Kerstetter, et ux, to Ralph E. Cable, tract in Millheim; $3.0.

Perry M. Harris, et ux, to Homer Southard, tract in Rush Twp; $3,500.

Irvin Confer to Homer Southard, tract in Rush Twp; $4,500

Cora Mathers to George Edwin Lathrop, tract in Curtin; 1.

Frank W. Warner, et ux, to Frank H. Gette, tract in Philipsburg; $2,100.

Thomas Beightol, et ux, to Edward E. Hoover, tract in Burnside Twp; $40.

Ray C. Noll to Perry Krise, tract in Spring Twp; $55.

Dushan Coal Mining Co. to John Rekalsky, tract in Rush Twp.; $1,800.

Oscar Zonge, executor, to Perry Krise, tract in Spring Twp; $750.

John A. Erb to Gus A. Johnson, tract in Philipsburg; $9,000.

Isaac B. Siegfried, et ux, to Philipsburg Country Club, tract in Rush Twp; $400.

Matthew B. Conaway, et ux, to Curtin Askey, tract in Burnside Twp; $150.

Sidney I. Poorman, et ux, to James Eckenroth, tract in Spring Twp; $100

Jesse T. Leathers, et ux, to James Eckenroth, tract in Spring Twp; $200.

John F. Schenck, et al, to Henry C. Holter, tract in Howard Twp; $12.

John F. Schenck, et al, to Daniel W. Holter, tract in Howard Twp; $12.

Edward McEvoy, et al, to Joseph Kasmark, tract in Rush Twp; $2,100.

William Foster, et al, to Thomas H. Mason, tract in State College; $700.

Philipsburg Coal & Land Co. to Joseph Danko, Jr., tract in Rush Twp; $280.50.

Philipsburg Coal & Land Co. to Andrew Mandel, Sr., tract in Rush Twp; $500.

Philipsburg Coal & Land Co. to Stephen Danko, tract in Rush Twp; $280.50.

Philipsburg Coal & Land Co. to Joseph Danko, Sr., tract in Rush Twp; $75.50.

A. N. Corman's executors to J. G. Winkleblech, tract in Miles Twp; $19.

Jacob Winkleblech, et ux, to J. G. Winkleblech, tract in Miles Twp; $10.

Bellefonte Cemetery Asso. to Mrs. Clara Koontz, tract in Bellefonte; $10.

James D. Thompson, executor, to Eliza Carter, tract in State College; $1.

Moses Thompson, et ux, to William E. Graham, tract in Haines Twp; $84.

Philipsburg Coal & Land Co. to John Parana, tract in Rush Twp; $80.

Grover C. Glenn, et ux, to Ralph U. Blasingame, tract in State College; $600.

Centre County Baseball League.

State College forfeited the game scheduled with Centre Hall on Saturday, failing to appear. The forfeited score was 9—0 in favor of Centre Hall.

Bellefonte played a double-header with Millheim and won one game but lost the other, the scores being 5—2 and 9—13.

State College will play at Bellefonte on Saturday and the fans are anticipating a contest worth attending. Millheim will play at Centre Hall.

STANDING OF THE TEAMS

Barn Burned at Spruce Creek.

One of the largest barns in the Spruce Creek valley section, was destroyed, together with hay and other contents, on Friday morning. The barn was on the William Wetz farm and the fire started from a sheaf hoisting machine.

POLITICAL ANNOUNCEMENTS.

For Sheriff.

"The Republican" is authorized to announce the name of William H. Brown, of Bellefonte Borough, for nomination for Sheriff on the Republican ticket, subject to the decision of the primary election to be held on Tuesday, September 18th, 1923. Mr. Brown respectfully asks and will appreciate the support of all Republicans at the primaries.

For District Attorney.

"The Republican" is authorized to announce the name of Arthur Dale, of Bellefonte Borough, for nomination for District Attorney on the Republican ticket, subject to the decision of the primary election to be held on Tuesday, September 18th, 1923. Mr. Dale respectfully asks and will appreciate the support of all Republicans at the primaries.

John G. Love authorizes announcement of his candidacy for the Republican nomination for District Attorney, subject to the decision of the Republican primaries on September 18th, 1923. Mr. Love desires and will be glad to receive the kindly influence and vote of every Republican in the county, and extends assurance that the same will be greatly appreciated.

For Prothonotary.

The "Republican" is authorized to announce the name of Roy Wilkinson, formerly of Philipsburg, now of Bellefonte, to succeed himself as a candidate for the office of Prothonotary of Centre County, subject to the rules governing the Republican Primaries to be held in September.

For County Treasurer.

"The Republican" is authorized to announce the candidacy of J. O. Heverly, of Bellefonte Borough, for nomination for County Treasurer on the Republican ticket, subject to the decision of the Republican primary election to be held on Tuesday, September 18th, 1923. Mr. Heverly respectfully asks and will appreciate the kindly support of all Republicans at the primaries

"The Republican" is authorized to announce the candidacy of Edward J. Gehret, of Bellefonte Borough, for nomination for County Treasurer on the Republican ticket, subject to the decision of the Republican primary election to be held on Tuesday, September 18th, 1923. Mr. Gehret respectfully asks and will appreciate the kindly support of all Republicans at the primaries.

For Register.

"The Republican" is authorized to announce the candidacy of Harry A. Rossman, of Spring Twp., Bellefonte, P. O. for nomination for Register on the Republican ticket, subject to the decision of the Republican primary election to be held on Tuesday, September 18th, 1923. Mr. Rossman respectfully asks and will appreciate receiving the support of all Republicans at the primaries.

"The Republican" is authorized to announce the candidacy of Thomas Morgan, of Bellefonte Borough, for nomination for Register on the Republican ticket, subject to the decision of the Republican primary election to be held on Tuesday, September 18th, 1923. Mr. Morgan respectfully asks and will appreciate receiving the support of all Republicans at the primaries.

For Recorder.

"The Republican" is authorized to announce the candidacy of Lloyd A. Stover, of Spring Township, for nomination for Recorder on the Republican ticket. Mr. Stover respectfully submits his name, subject to the decision of the Republican electors at the primaries to be held on Tuesday, September 18th, 1923. He asks and will appreciate their kindly influence and support.

For County Commissioner.

Editor Republican,—Please announce my name to succeed myself for County Commissioner, subject to the decision of the Republican voters, at the primaries to be held September 18th, 1923.

GEO. H. YARNELL,
West Precinct Walker Twp.
P. O. Mingoville, Pa

Editor Republican,—Please announce my name to succeed myself for County Commissioner, subject to the decision of the Republican voters at the primaries to be held September 18th, 1923.

HARRY P. AUSTIN,
Milesburg, Pa.

The Republican is authorized to announce the candidacy of John T. Harnish, of Wingate, Boggs Township, for nomination for County Commissioner on the Republican ticket, subject to the decision of the primary election to be held on September 18th, 1923. Mr. Harnish will appreciate the support of all Republicans at the primaries.

For Overseer of Poor.

"The Republican" is authorized to announce the candidacy of Thomas Fleming for nomination for Overseer of Poor in Bellefonte Borough, on the Republican ticket, subject to the decision of the Republican primary election to be held on Tuesday, September 18th, 1923. Mr. Fleming respectfully asks and will appreciate the support of all Republicans at the primaries.

"The Republican" is authorized to announce the candidacy of Toner Alkey for nomination for Overseer of Poor in Bellefonte Borough, on the Republican ticket, subject to the decision of the Republican primary election to be held on Tuesday, September 18th, 1923. Mr. Alkey respectfully asks and will appreciate the support of all Republicans at the primaries.

"The Republican" is authorized to announce the candidacy of Alexander Morrison for nomination for Overseer of Poor in Bellefonte Borough, on the Republican ticket, subject to the decision of the Republican primary election to be held on Tuesday, September 18th, 1923. Mr. Morrison respectfully asks and will appreciate the support of all Republicans at the primaries.

OVER THE COUNTY

George Musser, of Howard, was admitted to the Lock Haven hospital last Thursday for medical treatment.

Steve Matis, who tills the Brockerhoff farm near Centre Hall, recently went to New York and met a nephew, a newcomer to the United States.

Centre County's biggest fair, the Grange picnic and encampment, will be held during the week of September 1—7. The supply of tents is not sufficient to meet the demand.

Friends of Albert H. Stover, of Millheim, are urging him to take out a comparatively large accident insurance policy as he has been having a number of accidents recently, the last being the most serious. He was hoisting brick to the roof of a dwelling, being engaged in erecting a chimney. A piece of 4 by 4 lumber fell from above and struck the ground in such a way that one end, from which nails protruded, struck Mr. Stover on the head. One gash was four inches in length and it required five stitches to close it.

The community picnic at Centre Hall will be held on August 4th.

The business men of State College last Thursday motored to Bellefonte, Lock Haven, Jersey Shore and Williamsport, returning via Lewisburg, Old Fort and Boalsburg.

Wallace White, of Linden Hall, sustained a fracture of his left leg near the ankle, when he was jolted from a hay wagon as the last load was being hauled into the barn on the farm which he tenants.

A community picnic will be held in Royer's woods, two miles east of Rebersburg, Saturday, July 28. In the evening a festival will be held on the Rebersburg school grounds. A good band will furnish music.

Lester P. Fiedler, formerly tenant on the Michael Fiedler farm in Haines Township, purchased the property for $21,000 when the executor of the Michael Fiedler estate had sale recently. The Penn Township farm was purchased by J. W. Winkleblech for $13,500.

WHERE ARE THE DEAD?

The present time of sorrow, sickness and death, to be followed by a Golden Age when "there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain."—Rev. 21:4. The correct answer gives strength, confidence, courage, and assists towards the spirit of a sound mind. Satisfactorily explained in the book entitled:

"THE DIVINE PLAN OF THE AGES"

Published in 25 languages. Over 5,500,000 copies in the hands of the thinking public. 400 pages, cloth bound. Sold without profit so as to enable all to have it. Price 40 cents. Address:

Mr. and Mrs. U. G. Fisher, of Sunbury, visited at the Fisher home from Saturday until Tuesday.

Dr. R. P. Gerhart and family spent Friday at the Charles Segner home.

George H. Waite Dead.

George H. Waite, one of the most widely known residents of Bellefonte, died at his home on Phoenix avenue on Tuesday evening from complications. The deceased was for thirty-five years employed in the Bellefonte Fuel & Supply company yards. He was for many years the superintendent and had practical charge of affairs, being a very dependable and trustworthy citizen. He became associated with the late J. L. Montgomery when the Fuel and Supply company was started and faithfully served in Mr. Montgomery's employ and later with his son, Gordon, until several months ago when continued failing health made it impossible for him to attend his duties. He seemed to be very seriously ill for some time and then was responding to treatment so that he expected soon to regain his former good health, but a wiser Providence deemed his work finished and he was called from this life to another sphere. Mr. Waite also took an active interest in the Loyal Order of Moose and the Patriotic Sons of America, having been a member of each organization for many years. He was a native of Barree, Huntingdon County, being born on February 20, 1854, a son of Adam (deceased) and Amanda Waite, the mother residing with another son, Allan, of East High street. On March 30, 1882, he was married to Sarah Sharp. Surviving are the widow and the following children: George, of Williamsport; Fred, of Trafford; John, of Johnstown; Joe, of San Francisco; Emma, Ruth, Gilbert and Merrill, at home. Three sons, Harry, Malcolm and Edward, preceded their father in death. His mother, one brother, Allan, of Bellefonte, and one sister, Mrs. Harry Rhoades, of Wilkinsburg, also survive. Funeral services will be held from the late home on Friday at 2:00 o'clock and burial will be made in Union cemetery.

A. V. Smith Dead.

Augustus V. Smith died at the Clyde Wetzel farm home, just south of Bellefonte, some time during Monday night or early Tuesday morning, being found dead in bed when members of the family went to arouse him on Tuesday morning. He was 84 years old on July 6 and was a native of Howard. His parents, Jacob C. and Hannah Gardner Smith, were pioneer settlers in lower Bald Eagle valley. The deceased was married to Emma Pifer, of Howard, in 1876, and she died in October, 1916. Surviving are two sons: Harry A. and Arthur, of Bellefonte, and one daughter, Mrs. Clyde Wetzel, with whom he resided; one brother, J. M. Smith, of Berwick, and two sisters, Mrs. Sallie Barham, Jonesburg, Ark., and Mrs. Hayes Schenck, of Renovo. Burial was made at Howard this Thursday afternoon. The deceased was a veteran of the Civil war, having served with Co. A, 45th P. V. and was a member of Gregg Post, G. A. R. He had resided in Bellefonte for many years and was well-known in this section.

Mrs. Mary M. Blair Dead.

Mrs. Mary Margaret Blair, wife of John R. Blair of Altoona, died Wednesday afternoon, July 18, from complications. Deceased was born at Milesburg, June 21, 1865, a daughter of William and Susanna Shope. She was united in marriage with John R. Blair in Bellefonte on March 10, 1881, but for the past 42 years had resided in Altoona. Surviving are the following children: Mrs. Ida McCombs and James H. Blair, of Rockford, Ill.; Mrs. Sarah Stine, of Lakemont; Clyde M. Blair, of Altoona; the bereaved husband; one sister, Mrs. Adam Keller, Altoona; and 3 brothers: George E. and William Shope, Altoona; William, Johnsonburg.

Mrs. Mary S. Johnston Dead.

Mrs. Mary Stoler Johnston, widow of Charles Johnston, died on Friday at her home in State College. She was 70 years old and formerly resided at Blanchard. Surviving are two daughters: Mary and Ellen, at home, and two sisters: Mrs. John C. Eaton and Miss Ellen Stoler, of Blanchard. Funeral services were held on Monday and burial made in the Disciple cemetery at Blanchard.

John M. Williams Dead.

John M. Williams, a resident of Nittany for many years, died on July 11. He was born on July 3, 1855. Surviving are two daughters: Mrs. William Gates, with whom he had resided, and Mrs. Manuel Tressler, of Mackeyville, and one brother, David Williams, of Nittany. Funeral services were held July 14 and burial made at Snydertown.

Jared Harper Dead.

Jared Harper, one of the most widely known and highly esteemed residents of Bellefonte borough, died in the hospital on Saturday evening from infirmities due to his advanced age. He was 84 years old on January 12, 1923. For some time he had not been in good health. He became seriously ill about a week before his death and was taken to the hospital in the hope that an operation might be beneficial but he failed to improve. Born at Red Bank, in Penn's valley, he was reared in that part of the county and early learned the value of thrift and industry. He came to Bellefonte about 1860 and was engaged for a time in the general mercantile business with his brothers, near where the James Schofield saddlery shop is located on Spring street. In a few years, with Harry Teats as a partner, a mercantile business was launched on High street near where the Watchman printing office is located. Later, Mr. Harper sold out to Mr. Teats and then started the store in the Crider Exchange, being succeeded some years ago by Thomas Hazel. Since that time Mr. Harperhad lived a retired life, keeping up his active interest in the affairs of the church of his choice, the Reformed, of which he was a leading member for near a half century. He was one of the original members of the Reformed Sunday School and helped much in every department of the church. Mr. Harper also owned a considerable number of properties, which he always improved, during his business career. He served as a school director and was formerly a trustee of Franklin & Marshall college at Lancaster. The deceased was twice married, his first wife being Diana Cronemiller. To that union two sons were born, both passing away in infancy. He married Miss Mary Wetzel in 1895 and she survives, with one son, John Harper, of Schenectady, N. Y. The deceased was the last member of a family of ten children of George and Elizabeth Kramer Harper, early settlers in Penn's valley. Funeral services were held at the home on Thomas street on Wednesday morning at 10:30, his pastor, Rev. Ambrose M. Schmidt, being in charge. Burial was made in the family plot in the Union cemetery.

Dennis Mongan Dead.

Dennis Mongan died very suddenly and unexpectedly on Saturday. He was employed as watchman at the foundry and became ill while at work, passing away at 8:30 before he could be taken to his home. He was born in Boonsborough, Virginia, on November, 9, 1852, making his age 70 years, 8 months and 21 days. Mr Mongan was a veteran of the Indian war, having entered the army in 1872. He was among the first soldiers to enter the Black Hills. After his honorable discharge from the service, he came to Bellefonte and was employed in building the old milling furnace, at which plant he worked for thirty years. December 21, 1886, he was united in marriage to Mrs. Jennie Solt and to this union the following children were born: Dennis M., of Wilmington, Del.; Brenton M., who passed away ten years ago; William E., at home; Mrs. Catherine Houser, of Bellefonte; Edgar R., deceased. The following step-children also survive: Mrs. J. R. Bailey, Detroit, Mich.; Samuel Solt and John L. Solt, of Altoona; one brother: Christ C., of Hagerstown, Md. The deceased was a good and kind husband and father, liked by all who knew him. Funeral services were held from his late home on North Allegheny street yesterday morning in charge of Rev. E. E. McKelvey and Rev. C. C. Shuey. L. A. Schaeffer sang Mr. Mongan's favorite hymn, "What a Friend We Have in Jesus." Interment in Sunny Side cemetery.

John C. Ray Dead.

Sunday evening just as the day was fading the spirit of life of John C. Ray, one of the congenial guests at the Methodist Home for the Aged, Tyrone, passed to its final reward. Mr. Ray had been ill for some time with hardening of the arteries, and his death had been momentarily expected for more than a week past. He was born in State College, June 3, 1853, just passing his 70th milestone. He went to the Methodist Home for the Aged Feb. 21, 1922, and had won the sincere friendship of all with whom he came in contact. He went to Tyrone from Sunbury, where he was a devoted member of the M. E. church. His wife, Clara Mackey Ray, preceded him to the grave 3 years ago. Four brothers survive: Calvin, of Altoona; George, of Milesburg; Sylvester and Ambrose, of Bellefonte. Short funeral services were held at the home Monday evening at 6 o'clock, after which the body was taken to Bellefonte and thence to Lewisburg Tuesday for interment.

Amos Mingle Dead.

Amos Mingle, a brother of Joseph Mingle, of State College, died at his home in Bellwood on Tuesday evening of last week. The deceased was past 68 years old and died very suddenly. Six children, his widow, 7 brothers and sisters, survive.

Troops Arrived Saturday.

The Boalsburg and Bellefonte troops arrived home on Saturday after two weeks in camp at Mt. Gretna, with no serious mishaps to report, all in better condition and well tanned by life in the open. The train reached Bellefonte between 10 and 11 o'clock. The horses remain at Mt. Gretna for two weeks to be used by other companies.

Speed Causes Auto Accidents.

Too much speed is said to have caused two minor automobile accidents in the vicinity of Unionville the past week. Walter Zahniser, employed by Harold Fisher on the fruit farm, was returning home in a light truck and lost control. The truck went over the embankment and one wheel was damaged. The other mishap occurred when a broom manufacturer, from Milesburg, lost control and his Ford sedan went over the embankment, where there is a steep slope of 10 feet. The car turned over twice, it is said, without being damaged to any extent and the broom peddler crawled from under the sedan, which he got back onto the road and drove toward home.

Leonard Still Champion.

Benny Leonard, champion lightweight boxer for the past six years, ably defended his title and defeated Lew Tendler, contender from Philadelphia, whom he slashed unmercifully during a 15-round bout.

NOTICE.

In the matter of the presumed death of Robert S. Fogleman.
In the Court of Common Pleas of Centre County. No. 148 May Term, 1923.

DECREE

And now, to wit, July 2nd, 1923, on due proof being made of the publication of notice in the manner and at the time hereinbefore directed after due consideration of the testimony produced before the Court and the Court being satisfied, does hereby decree that the legal presumption of death of the said Robert S. Foglemen on August 1, 1920, is made out.

The Clerk of this Court is directed to cause to be published for three successive weeks in the "Bellefonte Republican", a newspaper published in the County of Centre; also in the Altoona Mirror, a newspaper published in the City of Altoona, Pennsylvania, that being the place from which the said Robert S. Fogleman was last heard from, a notice of this decree, and that the said Robert S. Fogleman, if alive or any other person for him, is required to produce to this Court within twelve weeks of the date of the last publication of said notice, satisfactory evidence of his being alive.

By the Court,
HENRY C. QUIGLEY,
President Judge

State of Penusylvania,
ss:
County of Centre.

I, Roy Wilkinson, Prothonotary of the Court of Common Pleas in and for the County of Centre, do hereby certify that the foregoing is a full, true and correct copy of the Decree so full and complete as the same remains of record before said Court at No. 148 May Term, 1923.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seal of the Court at Bellefonte this 3rd day of July, A. D. 1923.

Roy Wilkinson,
Prothonotary.

RE-ADVERTISEMENT

Proposal for Removal, Transporting, Cleaning and Painting and Replacing of Iron Bridge, and for Building one Bridge Abutment.

Sealed proposals will be received by the undersigned up to 11 o'clock A. M. on Saturday, August 11, 1923, at the office of the Commissioners of Centre County, Bellefonte, Pa., as follows:

FIRST. For the removal of a certain iron bridge across Spring Creek, in Benner township, Centre County, upon lands of the Western Penitentiary, and transporting the same to Bald Eagle Creek, immediately south of Snow Shoe Intersection station, in Boggs township, said county, and for cleaning the same with wire brushes, giving it two coats of graphite paint, and for re-assembling said bridge and placing the same upon abutments across said Bald Eagle Creek.

SECOND. For building a new concrete and stone abutment with wing walls on the south side of said Bald Eagle Creek, upon which the above mentioned bridge may be placed.

The bids will be publicly opened immediately at the above stated hour.

All of the work to be preformed according to the plans and specifications on file in the office of the Commissioners.

Copies of the plans and specifications may be secured from the office of the Commissioners upon payment of $5.00.

A certified check for $200.00 must accompany each bid, subject to the usual rules of forfeiture.

The undersigned reserve the right to reject any or all bids.

The Supervisors of Boggs township will pay all the expenses connected with the contract covering the first paragraph hereof.

HARRY P. AUSTIN,
GEO. H. YARNELL,
JOHN W. YEARICK,
Commissioners of Centre County.

Attest:
W. C. ARMSTRONG,
Clerk.

G. P. HEVERLY,
HARRY ROCKEY,
JOHN WATSON,
Supervisors of Boggs Twp.

HELPING THE FARMER

The farmer should pray to to be delivered from his political friends. In the last Congress the farm bloc put through certain legislation on the plea that it would help the farmer. The grain futures act was part of this legislation. When it was enacted wheat was selling for $1.27. The price is now less than one dollar.

The emergency tariff and the Fordney bill, other measures, have increased the cost of everything the farmer buys, closed his foreign markets and advanced the cost of labor.

Farming conditions will not improve until the questions at issue between Germany and the Allies are settled, and until there is a market here for foreign goods taken in exchange for our surplus produce.

But the next Congress will see the quacks again at work trying to fool the farmer with silly legislation.

THE FIRST NATIONAL BANK
BELLEFONTE, PA.

The Luxury of A Meal in A Dining Car

The Hall Mark of Service

Good food, well cooked and served in an attractive manner are recognized features of Pennsylvania Railroad's Dining-Car Service.

$1.00—One Dollar Meals—$1.00

One dollar will buy a lunch or a dinner on a Pennsylvania Railroad dining car.

Four "special combinations" are provided on each luncheon and dinner menu in addition to the usual a la carte features. Over one hundred different combinations are used and changes are made every week in order to afford a variety of choice. Each "special combination" consists of meat, fowl or fish, two vegetables, rolls and coffee, tea or milk. The portions are ample for one person and are served on separate dishes the same as a la carte orders.

This service not only meets the desires and conveniences of railroad travelers, but also effects a reduction in dining-car prices notwithstanding the continuing high cost of dining-car service.

Persons interested in the cost of serving meals in dining cars should read the pamphlet—"Food at 50 Miles an Hour Costs"—reprinted from *The Nation's Business*. Copies of this pamphlet may be had, free of cost, by writing to D. N. Bell, Passenger Traffic Manager, Broad Street Station, Philadelphia.

MATTER HE DIDN'T MENTION

Boastful Man Got Away With Box of Chocolates, but There Was a Reason.

A man was boasting to some others he had met that he could take any article from a shop without being detected. One of his hearers bet him that he could not take a box of chocolates in this way.

The man agreed and they went along to a grocer's shop.

"You wait here," said the daring one, "and you'll see!"

With these words he went into the shop, took a box of chocolates from the counter and walked out.

"There you are!" he said proudly. "I've won the wager!"

The stranger smiled.

"You're very smart!" he answered. "But I happen to be a detective and I am going to arrest you for stealing!"

"Wait a bit, sir," said the other coolly. "I happen to be the proprietor of the shop!"

Fitted.

The manager laughed heartily at the idea.

"You, a girl, would play Hamlet?"

"Why not? I played Little Lord Fauntleroy successfully, didn't I?"

PROPHET TOLD OF LOCUSTS

Joel Warned People of Their Coming, Three Thousand Years Ago—Cicades Less Numerous.

The locust has been a plague to mankind for centuries.

"The land is as the Garden of Eden before them," said the Prophet Joel almost 3,000 years ago, "and behind them a wilderness; yea, nothing shall escape them." He described the coming of the locusts as "a day of cloud and thick darkness; as dusk spreads over the mountains."

The periodical ciades, some of which appear every 13 and others every 17 years, do not devastate the land they pass over in the same degree as locusts that descended from the arid steppes of Asia. Periodical cicades are growing less numerous owing to the cutting down of forests. The eggs are laid in tender twigs of trees, and if no trees are at hand their propagation is prevented to a large extent. Birds are enemies of the insects, especially the English sparrow. No remedy is practicable against them in large numbers over large areas.—Detroit News.

All the world loves a lover. All the world loves to be amused.

The Meat of the Wheat

STARCH is the "meat" of the wheat berry. It is the great energy-producing element of the grain. But, in order to do you any good, it must be thoroughly digested, and it is right here that such a food as Grape-Nuts renders special service.

Grape-Nuts, made from wheat and malted barley, supplies the meat of the wheat in most digestible form.

That is because in the making of Grape-Nuts a large proportion of the starch is converted into dextrins and maltose—forms into which *all* starch elements must be changed before they can be assimilated by the system.

Grape-Nuts not only digests easily, but also *aids in the digestion of other foods.*

Crisp, delicious Grape-Nuts with milk or cream is a complete food. It supplies the life-essential vitamin-B; also iron, phosphorus and other important mineral elements for nerve, tooth, bone and other body structure.

The daily use of Grape-Nuts is a form of health insurance which has demonstrated its value for more than 25 years.

Grape-Nuts
FOR HEALTH
"There's a Reason"

Your grocer has interesting details of our offer of over $7500.00 for Grape-Nuts Recipes. Ask him about it; or write to Recipe Dept., Postum Cereal Co., Inc., Battle Creek, Mich.

WHY HARDENED COPS TURN RED

At Least One Could Not Say This Was a Job Suitable for a Preacher's Son.

TAKE-OFF ON POLICE

Chicago.—After numerous attempts had been made to serve upon Miss Pearl Kircher, a warrant accusing her of passing a bad check for $108.40, the warrant was handed to Messrs. William Gorman and Edward McGuire, detectives of the police bureau.

"And don't come back with it," said the lieutenant, as he instructed the detectives concerning their mission. "Bring the prisoner. Use your heads. We've had about a thousand policemen trying to serve this warrant until it's about worn out. She's a smart woman. Bring her in."

They Use Their Heads.

And so when McGuire had pushed the bell button in the Sheridan road apartment building and a sweet voice had said, "Who is it?" McGuire said:

"Parcel post," and slyly nudged Gorman in the ribs in token of his vast subtlety.

The buzzer sounded. The detectives went up two steps at a time, and when the door of Miss Kircher's apartment opened McGuire's foot strategically held it there.

"Parcel po—," began Miss Kircher, in a tone that implied a studied coolness.

"Listen, lady," said McGuire, "we hated to do it; but we thought you wouldn't like a rumpus so we—well, we're police officers and we have a warrant for you."

Almost immediately the air was full of woman's rights—and lefts. Meanwhile one of the detectives entered.

"Now, lady," pursued McGuire, "we thought you'd like to fix this thing up. So, come on, and we'll be going."

"You'll take me nowhere," said Miss Kercher; "just watch and see if you do."

And without more ado she plopped down on a divan. Off came a dainty

"Please, Lady," Implored Gorman.

slipper. It caught McGuire on the ear. Off came another slipper. It fetched Gorman on the jaw. Off came her diaphanous housegown—

They Really Blush.

McGuire's face was turning a deep scarlet. So was Gorman's.

"Now, lady," said McGuire, and he lifted a deprecating digit. No use. Off came the lady's stockings.

"Please, lady," implored Gorman. Her answer was a silken something-or-other.

"Lady," supplemented McGuire, "we're men of family and this is no way to—"

A final fling of filmy things. Well, sir, there she was!

"Now," said she, "go ahead with your arresting."

Said McGuire: "Gorman, phone for the wagon—and a blanket."

"And a barrel," said Gorman. The wagon came. Came also E. Kahn, the landlord.

"Oh, goodness," said E. Kahn, "she wouldn't pass a bum check. Why, she's got an income of $4,000 a month. I'll drive you all down in her limousine."

At which the lady put on her clothes. And when she had signed her bonds in the bureau she turned to McGuire and Gorman and said:

"Well, you wanted excitement, and you got it."

Five Years for Each Wife.

Baltimore, Md.—Convicted of marrying five women without a divorce from any of his former spouses, Claude McDougal was sentenced to serve five years in prison for each marriage. Kate McDougal, his fifth and only legal wife, declared that she will be true to him.

Jailed for Breaking Into Own Home.

Maysville, Ky.—Charged with breaking into his own home during the absence of his father, Lansing Haley, seventeen years old, is held for action by the grand jury.

How City People Are Trying to Keep Cool

These photographs, taken in New York, are typical of the sights in all our large cities during the prevailing hot weather. The boys find the fountain is a fine swimming pool, and at night the parks are dotted thick with men, women and children who cannot sleep in their hot, stuffy homes.

Flying Flivver Is Now Assured

New Invention Is Expected to Put Plane Within Reach of Every Family.

The "flying flivver" has literally and suddenly come into the sky. Although the pioneer was wrecked, aeronautic experts believe that flying flivvers soon will become as plentiful, relatively, as their namesakes. The new experiment in human flight proved itself before it crashed upon a Jersey tree in an attempted flight from New York to Washington.

The nickname of the Dewoitine cross between a glider and a regular airplane is befitting in respect of weight, size, fuel requirements, relative speed and probable construction cost. Emil Dewoitine is quoted as having said that the machine can and will be manufactured in quantity at a retail price of $400. Georges Barbot, the pilot, has said that the craft would cover 125 miles on a gallon of gasoline. But in respect to practical usefulness, as a means of aerial transportation of persons or goods, the flying flivver gives no promise of living up to the flivver reputation, in the opinion of aviation experts.

The Dewoitine machine is different from a motorless glider chiefly in that it has a motor. To withstand the vibration of the engine, the wing surfaces and skeletons and the body had to be constructed more strongly than in the case of a glider. This meant additional weight, and, together with the weight of the motor itself—said to be only forty pounds—made the whole craft considerably heavier than a glider. The total "tonnage" of the flying flivver was about 400 pounds, without the pilot, which is double the average weight of man-carrying gliders. And successful man-carrying gliders have been made weighing even less than the average of 200 pounds.

The Dewoitine craft is different from a regular airplane mainly in that the motor is of much lower horse power and the whole machine is smaller and lighter. The motor mounted in the flying flivver is a two-cylinder Clerguet of twelve horsepower. Ordinary small airplanes carry 100 horsepower motors, on the average; though constant improvements in propeller and wing design are gradually lowering the horsepower requisite in proportion to the weight of machines. The Sperry fast messenger plane, recently tested over Long Island, has a 60-horsepower engine. This plane is one of the smallest in the country, however.

In point of size the Dewoitine invention measures 40 feet from wing tip to tip and 15 feet over all in length. The craft is a monoplane, and even with the 40-foot spread its wing area is less than the average airplane. It is just about equal, however, to the total wing surface of many small types of comparatively high speed one-seater planes, which have more powerful motors, weigh much more, but can sustain their weight with the small wings by virtue of their swiftness.

Extends Power of Gliders.

The power equipment of the flying flivver, small though it be, is enough to do away with the limitations peculiar to motorless gliders. Its additional weight, however, is not too great to prevent powerless gliding. A glider cannot start flight from level ground. Ordinary glider flights are begun from hilltops, by rolling the craft downhill until they pick up "flying speed" and take off from the slope. Where hillsides are less steep or long, catapult devices have been used to help supply the initial flying speed, but with little success on the whole. H. J. Nordman used an elastic rope to propel his "sailplane" into the air from the highest mound at the golf links near Bayside, L. I., in a recent series of flights.

The seemingly impossible feat of making a motorless winged craft climb up in the sky is possible because of the presence of upward movements of the air. The fact that air currents do move upward and downward as well, is often overlooked because such currents are rarely encountered near the earth's surface, and never in areas where the surface is flat and smooth. Obviously, a down-moving current is deflected when it nears the earth, and spreads out in a sort of radial wind movement. It is plain, too, that an up-moving current cannot originate just at the earth's flat surface, because it would cause a vacuum there.

The currents by virtue of which gliders can keep their altitude or even climb, are not called winds, usually defined as horizontal natural movements of air. They are sometimes technically known as "winds with a vertical component." Soaring birds, such as hawks and eagles, the natural gliders, take advantage of these upward-flowing vertical or inclined movements of air, to fly and climb for hours at a time without flapping their wings or exerting themselves in any way except to maintain their balance and steer in areas where the air movement is favorable. There is no doubt, though, of course, there is no direct proof, that these soaring birds have an instinctive sense of rising or falling—a sort of exceedingly sensitive natural altimeter—by which they pick out the upward-moving areas of air. Gliding is merely man's way of imitating the soaring birds. And man must use his common sense and intelligence and judgment in place of the soaring birds' instinctive sense of rising or falling, to spot the correct place to glide.

Some aeronauts prefer to call these motorless aircraft "sailplanes" instead of gliders, which is the term more commonly applied. H. J. Nordman, inventor of the craft that recently made several flights over golf links near Bayside, refers to his machine as a sailplane.

Downward Air Currents.

Glider pilots have to guard in particular against the downward air currents. It is obvious that in the total of all air movements over the earth's surface the speed and volume of the rising currents equal the speed and volume of the falling currents. The falling currents are what, in the pioneer days of aviation, were known as "air pockets," regarded with dread. The slow-flying airplanes of those days, like the Dewoitine flying flivver, were more subject to downward eddies of wind and were less safe for that reason. The faster a plane is moving through the air, the less effect will it feel in reaction to air eddies, or "bumps," as the aviators call them. This fact is somewhat of an obstacle to the future popularity of flying flivvers, which must be a relatively slow craft when not gliding, if it is to combine the elements of gliding and of powered flight.

The flying flivver's power equipment is just sufficient to give the craft a start from level ground, without the aid of a catapult or any other starting device. And in the air the motor makes it possible to continue flight in aerial conditions that do not permit powerless gliding. The flying flivver driver can fly in still air, or even in moderate downward currents, and seek out areas favorable to gliding. This the glider of course cannot do. When the flying flivver pilot reaches an area in which the air is rising, he can throttle down or even perhaps "kill" his motor, and fly his wasplike machine as a glider. A regular airplane can do the same thing, to be sure; but not nearly so well. The larger motor of the ordinary plane makes that much more dead weight. And the relatively smaller wing area of the airplane built for speedy flight is incapable of gliding without "losing altitude" at a much faster rate than the slower glider or flying flivver, and correspondingly losing the advantage of the upward air currents. In this instance, the slowness of the flying flivver and the glider is the essential factor.

The "gliding angle" is the ratio of the horizontal distance through which a flying machine glides, or volplanes, to the vertical distance it lowers itself in doing so; meanwhile retaining its "flying speed," or normal rate at which it remains under full control of the pilot. The ratio of six to one is a conservative average figure for airplanes. That is to say, an average airplane with its motor shut off at an altitude of 1,000 feet can volplane a horizontal distance of 6,000 feet under control before it comes to land.

An efficient glider has as good an angle of glide as an efficient airplane. But the important difference is that the glider travels more slowly. Assuming in the foregoing case, for instance, that the airplane would normally glide to the earth, through the 6,000 feet from a height of 1,000, in one minute, the glider, with the same gliding angle, but much less speed, might take two, or even three, minutes to glide the same distance. The difference is due to the varying flying speed. The flying speed of an airplane or glider is the minimum speed it must maintain in order to fly forward on a level under full control. It is, therefore, practically the same as the speed of the craft at the moment it takes off, when the speed just begins to provide "lift" enough to overcome the weight of the machine. Flying speed not only varies with different types of planes, according to design and ratio of wing area to weight, but also varies from time to time in an individual plane, according to loading and to the condition of the wings and other essential parts at the moment. An airplane with a flying speed of 50 miles an hour with pilot only aboard will necessarily require a slightly higher flying speed with a passenger also aboard. Mere speed must be attained to supply the additional lift. A plane with its wings newly "tuned up" to afford maximum efficiency will gradually require a higher flying speed thereafter, as the wings sag and warp out of best alignment under the strain of usage.

Flying Speed.

Flying speed in general is governed by the ratio of wing area to weight. The larger the total wing surface is in proportion to the weight of the airplane or glider, the less is the flying speed. The less number of pounds that each square foot of wing surface has to sustain the slower the wing must pass through the air. The object in glider construction, therefore, is to provide as great wing area as possible in proportion with weight. This makes for low flying speed, which facilitates the gliding and climbing. It permits such low flying speed that gliders, much more frequently than airplanes, do the trick of seeming to fly backward, as the Dewoitine machine did at Roosevelt field. This is due merely to gliding or flying headed into a wind with a velocity greater than the flying speed of the craft so that, while the craft is moving forward fast enough to keep balance, it is moving backward relatively to the earth.

The flying flivver, like its immediate parent the glider, seems fated to become a sporting and pleasure machine, rather than a practical commercial vehicle of general usefulness. The glider has already become a popular "play toy." In Switzerland and in the Hartz mountains in Germany, gliding was a familiar pastime last winter. The snow-covered hillsides were good places for taking off, with skids instead of heavier wheels on the machines; and the snow-covered valleys afforded equally good landing places. With its possible very low cost, and with its range of performance considerably greater than that of the glider, the flying flivver will perhaps soon become a successful competitor of the automobile runabout and the motor boat, as a thing of sport. But its significance scarcely exceeds that, because the gliding feature is available only under rare aerial conditions, and at that in few locations.—New York Times.

Italians Settling in Mexico.

Mexico City.—Italian emigrants are expected in large number in Mexico, and probably will settle in the states of Tamaulipas, Jalisco, Tabasco and Nuevo Leon. Arrangements for their colonization have been made by agents of the Italian emigration service at Washington. The first batch of arrivals probably will number 600.

Frocks of Knitted Fabric;

Dresses for Little Girls

ARE you casting about for the ideal gown for summer wear? Something refreshingly cool, yet not of the lingerie type, a frock that is apropos for any occasion, being dressy, yet not so dressy but that it is suited to the time and the place; a dress that "looks like new" at every wearing? For those who have had the good fortune or forethought to acquire one of the ultra smart modes fashioned of some one or the other of the new knitted fabrics, "dreams have come true."

Just because knitted textiles are so likable, not only are we catering to our fondness for them in that our loveliest summer frocks are being created therefrom, but rumor has it that fabrics of this genre will be very fashionable this fall.

Just now interest centers about white midsummer frocks made of knitted fabric, for the solid white ensemble is registered as the style de luxe for the moment. The accompanying picture illustrates two smart styles which owe their attractiveness to the handsome knitted textiles from which they are created.

The one to the right is made from drop-stitch tricosham, and exquisite knitted fabric featuring the openwork effect which is quite the rage this season. The open stitch being in stripes, gives chance for clever play in combining horizontals with verticals. Notice the novel sleeves.

The companion frock in the picture takes on more of a tailored aspect in that it is developed from the plain tricosham, which is so firmly knit that it becomes as a rich, heavy, silk-lined material. However, it is truly a knitted fabric possessing all the virtues of being cool, just elastic enough to conform to grace, and for durable wear it has no peer. Plaited skirt, buttons adroitly placed, and an entrancing girdle are points of interest in this costume.

An outcome for the fashions for knitted fabrics is the overblouse and jacquette made thereof. Even newer are the short loose coats of knitted yardage, which are so aptly finished in silk braid or bound with inch-wide self fabric.

The vogue of embroidery for the dress-up frocks of the very little miss is one that continues year after year. No other adornment seems to be quite so in keeping with the dainty materials and simple lines of youthful garments, and consequently the styles in summer dresses for 1923, being no exceptions to this rule, feature embroidery in many new and interesting uses.

In the little white voile party dress illustrated below. French knots are used to finish the neck and sleeves. Fancy smocking at the front and back adds an attractive touch. Around the hem of the skirt is a garland of tiny flowers embroidered in French knots in pink, yellow and blue.

Colorful needlework is also being extensively used on nursery frocks of fine gingham, cotton crepe and black sateen. On these the decorative designs are amusing. Animals, toys or familiar figures from fairy tales are embroidered, or appliqued, to ornament these otherwise very plain little garments. Dressier models are also colorful but use fine embroidered bouquets or garlands of fruits and flowers. Little taffeta dresses are shown with large rosettes or frills of the same material about the skirt, the center of each rosette being made of tiny silk flowers.

Two Smart Styles in Knitted Frocks.

White Voile Party Dress.

The AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

LEGION TO SEEK NEW LAWS

National Legislative Committee Drafts Broad Program for Next Session of Congress.

The American Legion's national legislative committee has drafted the Legion's program of national legislation, to be submitted to the Sixty-eighth congress. The program represents the recommendations adopted at the last national convention of the organization. It is designed to assist the interests of ex-service men and to express the Legion's conception of national progress. The schedule includes eight principal proposals, as follows:

Adjusted compensation for all former soldiers, sailors and marines.

Creation of a standing committee in the house of representatives to handle only veteran legislation.

Retirement privileges for disabled emergency army officers with the same status as officers of the regular army, as provided for in the Bursum bill, held in committee at the last session of congress.

Further liberalization of the war risk insurance act to extend the period of service origin of tuberculosis from three to five years.

Enactment of a universal draft law by which the President, in the event of war, would be empowered to draft capital, labor, industry, and transportation, as well as man power.

Adoption by congress of a permanent immigration policy, based on restriction and selection, although the Legion may insist on total exclusion of immigrants for five years until thorough Americanization of those now in this country has resulted.

Authorization of an archives building in which to preserve war records now housed in buildings which are not fireproof.

Distribution of captured and surrendered war trophies among the various states in proportion to their number of men in the service.

"ARLINGTON OF THE WEST"

Cemetery for Ten Thousand Veterans and Members of Their Families, Opened in California.

"The Arlington of the West," a cemetery for ten thousand veterans of the World war and their families, has been formally opened by the American Legion at Glendale, California. The American Legion plot in the memorial park is considered a great achievement for the Legion in the West, for in future years there will be concentrated the resting places of thousands of veterans of the recent war, a project second only to the governmental cemetery near Washington.

At the formal ceremony which opened the park practically every person of southern California who had relatives in the World war was in attendance, and prominent citizens from all over the country joined in the dedicatory service. One of the speakers was Governor James G. Scrugham of Nevada, a past national vice commander of the American Legion, said to have been the first Legionnaire to have ever been elected to the governorship of a state. Governor Richardson of California and Congressman Walter Lineberger of San Francisco, together with many prominent Legionnaires, were in attendance.

Full military honors were accorded the remains of seventeen World war veterans, the first to be buried in the Legion plot. These bodies were interred with special symbolic ceremony prepared for the occasion.

The memorial park is beautifully located and is accessible by splendid highways from all points of southern California.

ALASKA CEMETERY IN ORDER

American Legion Members of Sitka Post Restore Long-Deserted Graves of Soldiers.

When a correspondence with officials in Washington brought no results, American Legion members in far-off Sitka, Alaska, restored a military cemetery in which were buried a number of American marines, who had died there in service during and following the gold stampede in 1898.

The place of burial which was designated as a national military and naval cemetery had been neglected since 1912. It was overgrown with weeds and the grave markers were blackened and obliterated.

Accumulating a supply of rakes, axes, saws and picks the Legion men one evening gathered at the cemetery to restore order to the chaos. The work continued several nights. Members of the American Legion auxiliary served sandwiches and coffee to the Legionnaires and to the townspeople who began to join in the undertaking as it progressed. At length a fair semblance of order was established.

When the job was over the veterans did not cease activities until they had induced the surgeon general of the navy to authorize an expenditure of $1,200 for the upkeep of the cemetery. The governor of Alaska immediately appointed the Sitka post of the Legion to administer the fund.

LEGION MAN IN HIGH COURT

Royal A. Stone, Minnesota, Who Saw Long Service, Named Associate Justice of Supreme Court.

Despite continued disappointments in earlier life, Royal A. Stone, an active member of the American Legion, has been named as associate justice of the Minnesota Supreme court. Justice Stone's uphill fight to this position marks his career as one of the most interesting in the Northwest.

It seemed that every possible hindrance was thrown in his way in early years, beginning with his matriculation as a law student at the University of Minnesota. Crop conditions brought heavy financial loss to his father so that the lad was forced to relinquish the college course to enter the office of an attorney to complete law work. His subsequent struggle for a living in a small town where ten other attorneys were practicing made it hard going.

His first trial, in defense of an alleged murderer, brough another disappointment. About this time the Maine was blown to atoms in Havana harbor and the country was stirred with appeals for men. Stone was anxious to go, but he could not desert his client. At length, the trial was over, however, and he was on his way to Georgia as a private in a Minnesota Guard unit.

Following discharge from service he made rapid strides in his profession. In 1904 he was named as assistant attorney general, continuing in this post until 1907, when he resigned to enter law practice in St. Paul.

The United States then entered the World war. Despite his age of forty-two years the Minnesotan made application to the first officers' training camp and there received a commission as captain. He was assigned to Camp Dodge, where he took command of Company A, Three Hundred and Forty-ninth infantry. Here his "jinx" bobbed up again. Captain Stone was eager to get to France, but on the eve of sailing an order came through making him a major and transferring him to the command of training troops. This, he says, was his last "disappointment." He remained at Camp Dodge until the armistice was signed, after which he was transferred to the inspector general's department. He left the service in July, 1919. Still a member of the reserve, Major Stone is inspector of the Eighty-eighth "paper" division.

Royal A. Stone.

His appointment to the highest court of the state is said by his comrades in the Legion to have been a fitting recognition of ability. Justice Stone has continued his work as a trial lawyer, and his choice by the governor has taken him from the rough-and-tumble of the courtroom to the judicial sedateness of the Supreme bench.

He is a member of St. Paul post No. 8 of the American Legion, which counts on its roster many men of Minnesota prominent in state, county and municipal affairs.

OWSLEY HONORED BY FRENCH

Award of Order of Merit of Union Nationale des Combattants to National Commander.

Alvin Owsley, national commander of the American Legion, has received the award of the Order of Merit of the Union Nationale des Combattants, composed of more than a million French veterans of the World war. Only fifty other men have been awarded this decoration.

Presentation was made by Charles Bertrand, secretary of the French organization, who was named president of the Interallied Veterans' federation at its last gathering in New Orleans. The latter organization, which represents fifteen million veterans of allied forces, has begun to wield considerable power in international affairs. The American Legion is the member body in this country.

The decoration is in the form of a handsome bronze medal, suspended from a green bar with a ribbon of the French society's colors. Accompanying the medal, as a personal memento from M. Bertrand, was a bronze plaque, indicating his unalterable affection for Commander Owsley and the American Legion.

Texas Post Gives Concerts.

Regular weekly concerts by members of the American Legion have been given by the Paris (Tex.) post of the organization for a period of nearly nine months. Legion artists have visited smaller nearby communities to present special musical programs, and weekly concerts have been given in the city. Recently the artists gave a complete program which was broadcast from a well known radio station. The post maintains a band, an orchestra, a drum corps and a quartet. Further service is rendered the community by a free medical clinic established for the poor by the Legion men.

RECORD IN CROPS

Western Canada Farmers Assured of Bountiful Yields.

Conditions Reported From All Parts of the Provinces Satisfactory in the Highest Degree—Pass Expectations.

From as early as April 17, when seeding became general throughout the Western Canadian Provinces, was there anything but optimism in the feelings of the farmers of that country. An uninterrupted chain of favorable conditions have bound the early seeding data with the conditions of the crop today. There were no setbacks. There may have been a hail storm or two with some ill effects through portions of the country, but the track they took was so small that the percentage of loss was almost imperceptible compared with the whole. Rains fell just when needed, the sun shone as if regulated by the farmer himself, the ground, generally, was in perfect condition and fully responsive. It is now a question of rivalry between districts and provinces which will produce the greatest results in crop yields and averages. Out in Alberta, whether it be in the north or in the south, that which gave assurance, in a well-prepared seed bed, of an excellent crop is passing expectation, and experts say there will be produced a crop away greater than ever before in the history of the province, and Alberta has had some big yields. Then, in Saskatchewan there exist the same conditions. The extreme north and extreme south will vie with the east and west in the story at harvest and threshing time.

Manitoba, while not boastful, complacently watches fields of wheat, oats, rye and barley that promise to set a new record for that province.

The fact is apparent that Western Canada will have a crop yield in all grains away ahead of any year in the history of the country. This will be pleasing news to the thousands in the United States, who have friends and relatives farming in that country. It should not be forgotten that these crops will be raised on land that in many cases cost less than $40 an acre and some of it was procured by merely homesteading. It is possible today to secure improved farms at very low figures, as well as raw or virgin prairie. Any Canadian government agent will gladly give information as to the condition of the crops, and dates when special rates may be had by those who wish to look over what is probably one of the greatest grain fields on the continent.—Advertisement.

Unforgettable.

Body Odors

BODY odors are caused by a germ (bacterium foetidum).

Most deodorants either clog the pores or substitute one odor for another. The scientific and healthful way to prevent the condition is to destroy the germs.

Zonite does this and leaves no odor of its own.

Zonite NON-POISONOUS

Here and There.

Thomas Shaughnessy, of Philadelphia, is spending his vacation in the home town.

Mrs. William C. Rowe and babe returned home last week after visiting the former's sister in Detroit, Mich.

Dr. M. A. Kirk is spending this week over in Clearfield county, visiting relatives and scenes of his boyhood days.

Miss Della Beezer went to Scranton on Saturday to spend her vacation of two weeks with several former school friends.

David Barlett, chief clerk in the Pennsy freight office, was called to Philadelphia last week on business, returning on Friday.

Dr. R. L. Stevens went to Petersburg on Saturday where his wife and family have been visiting home folks, expecting to return this week.

Mrs. Mark Williams, in training as a nurse in the Hazelton state hospital, is spending her vacation with her parents, Mr. and Mrs. Howard Stover.

Mrs. Charles W. Meek and daughter, Miss Ada, of Pittsburgh, returned home on Saturday after visiting at the home of Mr. and Mrs. John M. Bullock.

Miss Mary Belle Brew returned on Monday morning to her home in New Jersey after visiting with her uncle and aunt, Mr. and Mrs. H. E. Fenlon.

Mrs. J. I. Underwood and three daughters, of Erie, are guests at the home of the latter's grandparents, Mr. and Mrs. Isaac Underwood, on Spring street.

Mrs. J. Mac Curtin and two children of Pittsburgh, are here on a visit to the former's mother, Mrs. Geo. F. Harris. Mr. Curtin visited over Sunday with them.

Mrs. Harry Keller, accompanied by her sons, Ellis and William, is visiting her sister, Mrs. W. C. Stoddart, of Stoddartsville, Luzerne County, for three weeks.

Mrs. Mary Krape, who makes her home with her daughter, Mrs. Claude Herr, departed on Friday for Bethlehem where she will visit for a month with her granddaughter.

Clair Lyons, familiarly known as "Toby", was elected president of Brooks-Doll post of the American Legion at the regular meeting on last Wednesday evening. Mr. Lyons succeeds Ogden Malin.

Miss Anne Shaughnessy, a graduate nurse employed in Philadelphia, was an arrival during the week-end and is visiting with her parents, Mr. and Mrs. Thomas Shaughnessy, on Howard street.

Samuel Thomas has been very seriously ill in the Bellefonte hospital, having been admitted to the institution on Saturday evening. There has been some improvement in his condition and his recovery is hoped for.

United Brethren Church—Sunday school, 9:30 A. M.; morning worship, 10:30, "The Compassion of Jesus;" C. E., 6:30; evening worship, 7:30. "The Normal Life;" Mid-week services Wed. 7:30. A personal welcome to each one. Frank B. Hackett, pastor.

Rev. Reed O. Steely departed on Friday for Williamsport, spending the day with relatives and friends. On Saturday, he joined a motor party of E. J. Teaman and James Kane, the latter of Howard, and motored to Eagle Mere, returning to Bellefonte on Saturday evening.

Edward Markley, one of the successful foremen of the American Lime & Stone Co., departed on Monday with his wife and three children on a camping trip along the upper Bald Eagle. They expect to remain in camp for one week. Ed will devote most of his time to catching fish, enjoying this popular sport.

Methodist Episcopal—E. E. McKelvey pastor, Sunday at 10:45 "The Value of Enthusiasm in Christian Work;" at 7:30 "The Reason Why God Gave Commandments to Us;" Sunday school at 9:30; the two Leagues will meet at 6:30. We have empty jars at the church to be filled for the home for the aged at Tyrone. Do not forget them.

Isadore Baum and wife, of Manhattan, Kans., accompanied by the former's sister and husband, Mr. and Mrs. Nathan Reisman, of Princeton, Ind., motored here during the past week and have been visiting relatives and friends in the home town, making their headquarters with Mr. Baum's brother, Sim Baum. It is Mr. Baum's first visit here in 6 years.

Mrs. Margaret Hutchison has as her guests, Mrs. Annie M. Cleveland and daughter, Madie, of Chicago, Ill. Mrs. Cleveland is a native of Centre County and a schoolmate of Mrs. Hutchison, both attending the Potters Mills school together in their youth. Mrs. McClelland is a daughter of Robert McClelland, and a relative of the Wilsons, Potters and VanTries families, all prominent in that part of Centre County in its earliest history.

Two former Bellefonte boys, Paul and Nevin Wetzel, who are making good in distant cities, are enjoying a vacation in the home town, making their headquarters with their sister and husband, Mr. and Mrs. Earl Hoffer. Paul, who is located at Buffalo, N. Y., accompanied by his wife, were arrivals on Saturday. Nevin and his wife motored from their home in Bellington, W. Va., on Tuesday. They plan to remain here the remainder of this week.

Walter Sweitzer departed on Tuesday for Corning, N. Y., to visit relatives.

Mrs. Henry C. Quigley and daughter, Miss Henrietta, are spending a short time at the former's parental home at Bradford, N Y.

Bond Musser, one of Emerick's popular bus drivers, and family returned on Friday after a vacation of one week in Williamsport and Millheim.

Mr. and Mrs. Isaiah Martz and family, of Berwick, and Mr. and Mrs. Edward Reiber, of Vicksburg, were guests at the home of Mr. and Mrs. Clark Carson on Sunday.

Don't neglect that cough. Wenck's Glycerole of Tar and Wild Cherry will give relief, without harmful dope or alcohol. 25 and 50 cents, all Druggists and Dealers. tf

George Derr and family with Harry Martin and family, are spending a two weeks vacation in the Harnish bungalow at Snow Shoe Intersection. They started yesterday to camp.

Friends and relatives of Mrs. David Steele, a former resident of this place but now of Tyrone, have received word of her serious illness and hope that she may soon recover.

Mrs. Edward Manning, of La Junta, Colorado, visited from Friday until Monday afternoon with her nephew and husband, Mr. and Mrs. Ward Fisher. Mrs. Manning will visit with relatives and friends in the east until some time this fall.

The Misses Ida Fisher and Pauline Noll, efficient employes in the American Lime & Stone Co's office, went by rail on Saturday to Osceola Mills, visiting with friends in Philipsburg, Juniata and Altoona, and motoring home on Sunday evening.

St. John's church (Episcopal)—Services for Sunday, July 29: Ninth Sunday after Trinity, 8 A. M. Holy Eucharist; 11 A. M. Mattins and sermon. The Rev. A. M. Judd, executive secretary of the diocese, will be in charge of these services. Evensong omitted. Rev. M. DePui Maynard, rector.

The Red Cross nurse, Mrs. Merrill Hagan, will take her annual vacation during the month of August. Her regular patients will be looked after by a nurse from the Bellefonte hospital. The regular office hours will be omitted but emergency calls will be taken by the supply nurse at the hospital.

Mrs. Henrietta Shultz, one of Curtin's best known residents who has been an invalid since falling and fracturing her hip five years ago, has been very ill the past week. Her advanced age, being close to the fourscore mark, makes her condition more serious but her many friends hope she may again respond to her physician's treatment.

The Otterbein Brotherhood at their meeting at the home of Roy H. Grove in Pleasant Gap last Thursday evening, decided to have a really big festival at the "Falls" island in Bellefonte on Saturday evening, Aug. 18. There will be a band, watermelons, cakes, ice cream, 'hot dogs", peanuts, "pop", balloons, a big crowd and a good time, unless the weather man interferes.

John Ammerman is carrying a very sore right arm, the member being in a sling as the result of a misfortune Monday of last week. Mr. Ammerman is employed at the Chemical Lime Co plant in Buffalo Run. He was standing several feet from the dinkey tracks while a string of cars was being moved. Very unexpectedly, one of the bodies, of the swinging type, swung at a point where such a happening had never before been noticed. Mr. Ammerman was struck with such force on the right arm that he was considerably bruised. Had he been between the cars, as customary, he would very likely have been seriously injured.

Presbyterian—Lord's Day services: 9:45, Bible School; 10:45, morning worship; special message by the pastor; evening worship at 7:30 with sermon by the pastor. In a quiet, dignified way and as an act of worship we plan to wipe out the indebtedness of the church. A debt unpaid becomes a millstone about the neck of the church and increases the financial burden through interest charges as time runs on. We invite every member to meet with us Sunday morning and assist in re-establishing the credit of the church. Those who are absent on Sunday will be seen during the week by a committee of the men. Attend Sunday and save them this extra work. David R. Evans, M. A., minister.

The report of the Red Cross nurse, Mrs. Merrill Hagan, for the month of June is: Nursing case visits, 53; investigation, 76; miscellaneous, 73; visits to schools, 3; Total, 205. Office interviews, 34; individuals advised at office, 6; approximate number hours in office, 39; well babies under supervision, 62. During this month the Red Cross conducted child health week with an afternoon for each church congregation when children of pre-school age were brought to the health centre to be weighed, measured and physically examined by the physician in charge. Dr. LeRoy Locke contributed his services on Wednesday; Dr. Seibert, Thursday, and Dr. Coburn Rogers, Friday. The total number examined were: Episcopal, 6; Reformed, 2; Lutheran, 2; Methodist, 5; Evangelical, 11; United Brethren, 7; Catholic, 16; Hebrew, 1.

W. F. Haas went to Harrisburg yesterday on a business trip.

Robert F. Garman, of Tyrone, visited old friends in town yesterday.

Laird Curtin went to Philadelphia on a business trip yesterday.

Mrs. A. O. Furst and Mrs. John Curtin and children motored to Philadelphia last Friday, returning home on Monday.

Rev. M. E. Hare will preach in the Milesburg Baptist church on Sunday morning and in the Baptist church at Blanchard on Sunday evening.

St. John's Reformed Church—Ambrose M. Schmidt, D. D., minister. Services next Sunday morning at 10.45; Sunday school at 9.30 A. M. No evening services until September.

Mr. and Mrs. V. U. Spencer, of Curwensville, accompanied by several friends, spent a short time last Saturday in Bellefonte. They were enroute home, following an enjoyable motor trip.

Carl Corman and family, accompanied by Miss Nellie Wolf, motored to Butler County yesterday. Mr. Corman will have charge of a number of trucks on a road operation in that section and the family will camp there until this fall, when they plan to return to Bellefonte.

TYRONE DIVISION READY

Outlook for Handling Business at Peak This Fall is Bright.

Since the institution of the Adequate Transportation movement there has been a marked improvement on the Tyrone division in every way. This has been brought about by the splendid activities of the Tyrone division committee on adequate transportation, and the wholehearted co-operation of both employes and the public. The newspapers have been especially generous with their space. This has done much toward enlightening the public of the aims of the railroads.

Continued progress is being made in the matter of repairs to locomotives, passenger and freight cars on the division. Road construction projects, of which there are several, are near completion. Building construction is normal.

Local Chamber of Commerce and similar bodies along the division still continue their friendly and helpful interest.

Some complaints have been received from patrons. Happy to state, all have been willing to co operate and these matters are either being speedily adjusted locally or taken up with the proper authorities for correction.

J. K. Johnston, superintendent of the division, with his chief clerk, H. M. Sausser, men of broad vision on transportation problems, have been the active heads of the movement here. Mr. Johnston has addressed a number of gatherings of representative farmers and business men on this great issue. He certainly has made clear the jist of the whole thing.

The outlook for handling business when the peak is reached this fall, is exceedingly bright for Tyrone division.

STATE HIGHWAYS BILLS

Secretary Wright Has About Completed Plans for Motorcycle Force

Plans have been completed for the inauguration of the department of highways police and this force will be on the highways of Pennsylvania the latter part of August.

The new police force will begin operations with 125 men, each of whom will receive $100 per month and expenses. The force will be distinctively uniformed and will be mounted on motorcycles. Details of the uniform are now being decided upon. It will be such, however, that members of the force will be instantly recognized.

"For reasons of economy, to secure a force as efficient as possible and of high morale," said Secretary Wright, "the department of highways has asked Lynn G. Adams, superintendent of the Pennsylvania state police, to organize the department of highways police. The state police training school will be used as a training school for the motor policemen. At this school they will be given thorough instructions in the motor laws of Pennsylvania and will be perfected in the use of motorcycles. A large number of applications for these positions has already been received, and the department is now mailing blank forms to these men. Similar forms will be mailed to all future applicants.

"The department of highways seeks to enlist young men who are skilled motorcycle riders and who have a high moral character."

Marriage Licenses.

Register Frank Sasserman has issued the following marriage licenses:

Clair E. Reiter, Virginia Lucas,	Karthaus Pottersdale
Elisha Darlington, Helen S. Chambers,	West Chester " "
Ralph C. Solt, Mabel L. Heylman,	Williamsport "
Forrest F. Bennett, Anna B. Haines,	Jersey Shore " "
Guy C. Askey, Goldie E. Long,	Philipsburg Glen Campbell

Fire Damaged Roof.

Fire on Monday at noon caused slight damage to the residence on Curtin street occupied by C. O. Johnson and family. Both fire companies responded and kept the loss at a minimum, only a small hole being burned in the roof. It is presumed that a spark from the chimney caused the blaze.

NO STRIKE ANTICIPATED

Will Not Urge Harding to Call Extra Session.

John Hays Hammond, chairman of the United States coal commission and Thomas R. Marshall, former vice president of the United States, who is also a member of the commission, are agreed that there will be no strike in the anthracite fields this fall; that the coal commission will not urge President Harding to call an extra session of Congress in connection with the fuel situation; and that the price of coal to New England consumers will not be higher than during the last two years, according to a copyrighted article appearing in the Boston Herald.

For the commission to call an extra session of congress now to deal with the fuel situation, would be uncalled for and an unwarranted presumption, Mr. Hammond was quoted as asserting. He expressed himself as extremely optimistic of the outcome of the conference between operators and miners at Atlantic City.
